EXTRA SESSION CALL ISSUED BY LOCAL COURT

Five Charges Against Grand Theater Manager To Be Considered

JURORS' NAMES DRAWN

Four Other Cases Scheduled To Be Presented at Special Meeting

A special grand jury session, to convene March 28, was ordered yesterday by Judge Scofield of the Court of Common Pleas.

Action on five charges standing against Edward F. Sharpless, manager of the Grand Theater, for operating motion picture shows on Sunday, is to be included in the grand jury program.

Should Sharpless go ahead with his announced intention of continuing the Sunday entertainments, it is regarded as probable that the list of five charges now pending will be increased by the time the grand jury convenes.

Transcripts now on file at the county clerk's office, ready for consideration of the grand jury, show that Sharpless was arrested three times on Sunday, March 4, and twice on Sunday, March 11.

The charge in four of the affidavits is "Exhibiting a theatrical performance on Sunday" and the fifth reads, "Operating a motion picture show on Sunday." All of the affidavits, sworn to by Chief of Police Thompson, allege violation of the state law.

Believe Shows Cause

Although no statement regarding the purpose of the grand jury call was made by Judge Scofield, the prevailing opinion is that action on the Sunday show question is the main object.

The jury was drawn yesterday afternoon by Sheriff James A. Deal and Clerk of Courts Harley Koons in compliance with the judge's order. It consists of the following persons:

Carey Russell, R. F. D. No. 1, Prospect; F. D. Bentz, 389 E. Church-st; Mrs. Florence Berg, 579 E. Church-st; B. G. Campbell, 140 Clover-av; Charles W. Leffler, 234 S. Greenwood-st; John C. Harver, 207 S. Vine-st; I. N. Hoop-

LOGAN GAS LACKS EVIDENCE--CITIES

Brief Filed with Commission Says Utility Fails To Prove Valuation

Columbus, March 14—Belief that the Logan Gas Co. has failed, "not only utterly, but miserably, to honestly present" to the State Utilities Commission sufficient evidence to uphold the valuation placed by the company's officials upon its properties for rate-making purposes was registered in a printed brief filed today with the commission by counsel for the various communities which protested against the company's schedule of increased rates.

The commission is scheduled to resume on April 3 its public hearings in connection with the Logan Gas case. After the hearings are completed, the commission will fix a tentative valuation of the company's properties, preliminary to determination of a schedule of rates which it will authorize the company to put into effect.

Counsel for the company recently filed a printed brief designed to support its appraisal of the properties. The brief submitted today goes into considerable detail in an effort to show that the company's valuations are excessive.

"When the commission deducts the items of going concern value, leaseholds, bond discount and mythical overheads from this company's valuation, we begin to arrive at the true pictures for rate-making purposes," reads the brief. "In the light of their own admitted income, and applying only an equitable return to the company, it is, necessarily, defeated in its exorbitant claims, and the approximately 50,000 families involved will only be paying a rate that is reasonable and just."

TWO AVIATORS REPORTED MISSING BY POWER CO.

Sanzus, Cal., March 14—Two aviators, C. W. English and B. D. Haugh of Clover Field, Santa Monica, Cal., were reported missing today by the Southern California Edison Co. The flyers left yesterday to survey the power line situation in San Francisquito Canyon and failed to return, officials said.

MURDER IN MANSFIELD

MT. GILEAD TO TAKE PART IN ORATORY MEET

Five Students To Compete in Event To Be Held Friday

Students in Mt. Gilead High School are anxious to enter the International Oratorical Contest being sponsored in this district by The Marion Star, according to a communication from that city today.

Five applications to represent the school in the Morrow County elimination contest have already been turned in to the teacher of elocution at that school. Those seeking entrance are Mabel Joe Mozier, Bernice Peoples, Stella Spriggs, Elsie Mishler and Janet Wieland.

The students will take part in an elimination contest within the school on Friday. The winner will then participate in the Morrow County contest to pick the student to represent the county in the district finals to be held in Marion on April 20.

The Morrow County elimination contest will be held the night of March 30, probably in the Mt. Gilead High School auditorium. According to W. A. Stage, head of all the schools in Morrow County including those in Mt. Gilead, there will be at least eight entered in the county event.

Of the seven rural high schools in that county at least three will hold school contests to pick a representative. In the other schools the teachers will select a student, either plan being permissable.

ACCUSATIONS PROVE "UNSUBSTANTIATED"

Donahey Reports Findings as Probe Continues into Charges Against Truax

Columbus, March 14—That all of the accusations made against Charles V. Truax, state director of agriculture, which have been investigated under direction of Gov. Vic Donahey proved to be "unsubstantiated" was the announcement made here today by the governor to newspaper men.

The governor stated, however, that his investigation into other charges relative to claims that Truax had been guilty of personal and official misconduct was not yet completed.

Donahey promised that Truax "will receive a square deal" in the governor's probe.

Friends of Truax today joined with the agricultural director in predicting that the governor's investigation will terminate in the exoneration of Truax from all the accusations.

BRITISH PILOT, GIRL SPEEDING TO U. S. SHORES

London Declares Hinchcliffe's Passenger Is Wealthy Elsie Mackay

CARRY 450 GALLONS GAS

Mystery Surrounded Take-Off, According to Word Received From England

New York, March 14—Determined to be the first fliers to span the Northern Atlantic in an east to west flight Capt. Walter R. Hinchcliffe, intrepid British "ace," and the Hon. Elsie Mackay, daughter of Lord Inchcape, today were believed to be winging their way toward America in the golden-winged Stinson monoplane in which they hopped off from Cranwell Airdrome, England, at 8:40 a. m. yesterday.

According to a dispatch from Halifax, N. S., the plane should be nearing the coast of Newfoundland this morning.

The Halifax dispatch stated that the French liner Roussillon, which sailed from that city for New York at 7:59 o'clock last night, reported picking up a wireless message from another ship which reported sighting a "large plane flying westward" when four days out of Bordeaux. The name of the ship was not disclosed.

The plane's take-off yesterday was veiled in a shroud of mystery, neither its ultimate destination nor the identity of Hinchcliffe's companion being divulged.

Transatlantic Goal

Later it was learned that the plane was making a transatlantic flight attempt and that the second person in the plane was not Gordon Sinclair, as was thought at first, but none other than Miss Elsie Mackay, daughter of one of England's richest peers and an experienced aviatrix.

The fliers should encounter the most favorable weather conditions possible at this time of the year, according to the Navy Bureau of Aeronautics at Washington.

The fliers are expected to encounter only two storms of moderate intensity which they might easily avoid by flying slightly north of the usual route. All winds along the shipping lanes and slightly to the north of them are reported to be blowing from the east, and hence they should help rather than hinder the fliers.

Weather Favorable

Weather reports from Newfoundland today were favorable. When the fliers

GUARD HUNGARIANS

Riot Mars Arrival of Visitors Here for Kossuth Unveiling

New York, March 14—The delegation of Hungarian statesmen here to participate in the unveiling of a monument tomorrow to Louis Kossuth, Hungarian patriot, was under heavy police guard today.

A small army of police was assigned to guard the visitors because of the riot which marred their arrival from Europe last night on the liner Olympic. Five hundred Hungarian liberals, opposed to the Horthy regime, congregated at the pier to demonstrate against the visitors.

NEGRO YOUTH TO DIE IN CHAIR THURSDAY NIGHT

Columbus, March 14—Final efforts to save Eddie Peppers, 21-year-old negro hotel porter of Gallipolis, sentenced to die in the electric chair tomorrow night, had apparently failed today when the Ohio Supreme Court rejected an appeal filed in his behalf.

Peppers was convicted of attacking and strangling Mrs. Florence Buck, 37, postmistress of Grimms Landing, W. Va., in a hotel room at Gallipolis. The victim was strangled to death with a towel, Aug. 13, and Peppers was found guilty in November.

YE OLDEN DAYS!

Three Unmasked Bandits Hold Up Bus and Stand

Mt. Sterling, March 14—Days of the "road agent" and precarious overland travel were recalled here today when Marshal Beatherd reported that three unmasked bandits held up a Buckeye Stage driver, and a barbecue stand operator, at Deercreek Curve, near here, shortly after midnight.

The three armed men visited the barbecue stand of Fred Young and after buying sandwiches turned their guns upon him and relieved him of his night's receipts of $20. Sauntering from the barbecue stand the men emerged when a bus occupied by the driver only drove up.

He was held up and robbed of about $10.

The bandits escaped in a tattered touring car in the direction of Columbus.

One of the men carried a rifle; the others carried pistols.

EX-TICKET SELLER NOW HAS MILLIONS

"Mike" Meehan, Who Engineered Rise of Radio Common, Watched by "Street"

New York, March 14—Wall Street, where fortunes have been made and lost in the twinkling of an eye, today watched with undisguised interest every move of Michael J. Meehan, familiarly known as "Mike," who, almost single-handed, has engineered the sensational rise in Radio common which has shot up that stock 61 3-4 points in four days of trading.

In that short time Meehan, who 20 years ago was selling tickets at a Broadway theatrical ticket agency, accumulated for himself a fortune which brokers variously estimate from $5,000,000 to $15,000,000. He has suddenly become the "biggest man" in speculative Wall Street, overshadowing Durant, Cutler, Livermore and the Fisher Brothers.

The speculative gyrations in Radio have influenced the rest of the stock market tremendously in the last week or more and has precipitated the biggest and broadest markets in the history of the exchange.

Meehan, a quiet, little man with a twinkling Irish eye, is the "specialist" in Radio common. He literally and actually "made the more" in Radio. As the specialist in the stock all buying and selling orders on the floor of the stock exchange must pass through his hands, or through those of his associates. He is said to have started his accumulation of Radio when stock was selling between 85 and 90.

Radio closed last night at 140.

Historical Pageant To Be Given By Granges To Show Achievements of 60 Years

Plans for Presentation Outlined at Conference of Masters, Overseers and Lecturers of Subordinate Bodies at Mt. Olive Hall Near Green Camp

Called for the purpose of discussing organization problems and the social, business and public relationship of the granges with other organized bodies, masters, overseers and lecturers of the subordinate granges in the county held an all day conference in Mt. Olive Grange Hall, northwest of Green Camp yesterday.

There are now nine chartered granges in Marion County with a total membership of 702, according to figures presented at yesterday's session. Of this number 154 members recently were added to the various organizations.

It was decided to increase the membership as rapidly as new enrollments could be assimilated, the drives to be staged under the direction of lecturers.

Heads Organization Work

J. L. Stiverson of LaRue is the director of organization work. Social relationships are in charge of Mrs. Grace Schwaderer. Under the head of social relationships three definite plans of work were outlined at the meeting yesterday. First it was decided to have each grange in the county entertain two sister organizations with the visiting bodies providing the entertainment programs.

The second proposal was to have each grange arrange an open meeting to which all residents of the community are to be invited.

Pageant Planned

The third project is to be an historical pageant designed to visualize the history and achievements of the grange organizations during the last 60 years.

Every grange organization in the county will take part in the presentation of this pageant. It has been arranged for each organization to trace the history and work of the organization over a given period of years.

The pageant is to be presented at a public meeting.

The matter of business relationships is under the direction of local business agents and the public or legislative work is in charge of Henry Thibaut, of Montgomery Grange.

It is expected that a meeting of these latter groups will be held in the near edjoyable part of the evening. the year.

If a marriage isn't happy, the parties to it try to interest themselves in work.

DINNER PARTY

Miss Ethel Porter Is Hostess to Group of Friends

Caledonia, March 14—Miss Ethel Porter entertained Monday night at a delightful dinner party at the home of Mrs. Belle Rinker, having as her guests members of the faculty of the Caledonia school and a number of other friends. Green and white, the season's colors, were cleverly used in decorating the rooms and the table which was centered with a vase of jonquils with tall tapers at either end. Favors were miniature baskets of mints corresponding with the decorations and color scheme carried out in the three course dinner.

Covers were placed for Supt. and Mrs. M. D. Shumaker, Mr. and Mrs. Lynn Underwood, Mr. and Mrs. Chester Ulsh, of Marion, Mrs. Oral Garber, Mrs. Belle Rinker, and the Misses Dorothy Scott, Mary Walsh, Gladys Brenizer, Elizabeth Saeger Helen Warwick, Elizabeth Nesbitt, Laura Garber, Irene Rinker, and the hostess.

Music, games and contests formed an enjoyable part of the evening.

CHURCH CHOIR ENJOYS PARTY AT SUGAR CAMP

Prospect, March 14—The Young People's choir of the Methodist Church, was invited to the home of Mr. and Mrs. Joel Dill at the close of choir practice, where they enjoyed sandwiches and coffee at the sugar camp and later in the evening a taffy pull at the house. This was in honor of the birthdays of Mr. Dill and his daughter, Elizabeth, who is a member of the choir. Other guests were Mr. and Mrs. Charles Collmer, Mr. and Mrs. L. M. Harmon, daughter, Esther, and son, John. This week the choir will be entertained at the home of Mr. and Mrs. Hiram Welch, southwest of town.

HOSTESS TO CLUB

Prospect, March 14—Mrs. Harold Osborn was hostess to the members of the Mu Beta Chi Club, Monday night, at her home. Mrs. Eugene Maize won first honors and Miss Marjory Crawford second honors. Miss Bo Latham of Bucyrus was a guest and won the guest prize. Miss Hazel Osborn will entertain the club in two weeks.

COUGHED SO HARD DISTURBED SHOW

Then Doctor Told Her Quickest Way to Get Relief—Cold Soon Disappeared

By taking the timely advice of her doctor, Miss Margaret Miller, like numbers of people, has found the quickest and surest home treatment to end a cough or deep seated chest cold.

Miss Miller had neglected her cold several days, thinking it would "cure itself." But instead, it started spreading down towards her lungs, causing her to cough so hard in a movie the other night that people stared at her. The day following she began to feel "feverish," feared pneumonia and called her doctor for advice.

Relief began inside of an hour when the doctor gave her double doses of Ayer's Cherry Pectoral—a concentrated mixture of wild cherry, terpin-hydrate and other ingredients which have relieved even the most extreme hospital cases. She felt the comforting, healing warmth from her throat deep down into her chest. By night the "feverish" feeling had left and she was able to breathe freely and sleep without coughing. The next day she awoke to find that practically all traces of the cold were gone, and in a day or so, the doctor reports, she was as well as ever.

Note: See other cases reported daily—all certified to this paper by the attending physician.

Doctors find that this hospital medicine does far more than stop coughing instantly. It penetrates and heals inflamed linings of the breathing passages. Absorbed by the system it quickly reduces phlegm, helps allay that "feverish" grippy feeling and drives out the cold from the nose passages, throat and chest.

Just a few pleasant spoonfuls of Cherry Pectoral now and you'll feel like a different person tomorrow. At all druggists, 60c; twice as much in $1.00 hospital size.

RAIN DELAYS WORK OF DIGGING SEWERS

W. Center-st Improve Being Placed Along Thoroughfare

...mwater and sanitary ...t of the W. Center- ...d by P. Drake & Sons Monday morning was halted by the rain yesterday. Thirty ... for the storm sewer are to be laid along the route of the sewer ... cisions of the trench has been ...

As planned, the sewer will be constructed west from Leader-st to the Hocking Valley tracks and east from Leader to Oak-st, the terminus of the paving. Leader-st being the outlet for the storm water sewer. The sanitary sewer will connect with the trunk line sewer at Bluemay.

Light standards, which were in the path of the sewer, have been removed by the C. D. & M. Electric Co. from the Pennsylvania tracks to Bluemay, and have been put in storage. Other standards will be removed as the sewer moves east. It will also be necessary to cut down a number of trees which are in the path of the sewer. Others which are not directly in the path of the trench, but which are so close that it will be necessary to cut off a great many of the roots, to make room for the sewer, will probably be removed also.

JAPANESE GREEN COLOR FOR SPRING

Has Yellowish Tinge That Is Striking; Patou Using It for Frocks

Paris, March 14—Twill be the wearin' of the green this spring, according to fashion dictators in Paris, but not the good old Irish green seen on the Emerald Isle. It is called "Japanese green" and has a yellowish tinge which is very striking. Jean Patou is using it for a number of spring and summer frocks.

Lacquer-red is also popular, as well as a new English red which seems to be a mingling of all the shades and is almost too lovely to describe. "Eggshell" is a soft creamy white which is displacing pure white in a number of the collections and is especially lovely for filmy chiffon frocks.

Juliet Courtisane is making sport suits in pastel shades which have been put a little in the background this season for the more somber, rich hues. Navy-blue seems stronger than ever and is very popular for tailleurs as well as afternoon frocks. There are any number of black ones, too. Black crepe satin dresses with soft white draperies near the throat and down the front of the bodice are always correct. Plain black taffeta makes many delightful dinner dresses.

All the old foulard designs are seen in crepe satin and crepe de chine. Yellow georgette is put under a coat of banana-colored cloth. All the banana shades are popular. Turquoise-blue is combined with banana-yellow. Emerald green is only seen in tulle for a picture dress.

Molyneux has an innovation this year in the form of a bridal gown in yellow tulle with a pink veil.

ULSH DITCH PLANS DELAYED BY APPEAL

Protest Against Schedule of Assessments Holds Up Proceedings

Proceedings in connection with the Ulsh ditch, an improvement scheduled for Claridon Township, have been held up as the result of an appeal action filed by several property owners in the Court of Common Pleas, last week. The suit was filed in protest against the schedule of assessments fixed by the county commissioners.

Opening of bids on the improvement, estimated to cost approximately $5,000, was scheduled for last Saturday. The contract letting was called off and no further action will be taken until the court proceedings are definitely concluded, county officials announce.

ARCHITECTS BUSY FOR CHICAGO'S WORLD FAIR

Chicago, Ill.—Although the World War Fair to be held here is five years away, prominent national architects already are drawing plans whereby Chicago will retain permanent benefits through new buildings of advanced design.

Under the plan which has been presented for consulting architects, Washington would be extended through Hearst square to the fairgrounds, giving the entire city access to the benefits of new buildings and business establishments.

The Fair year, 1933, has been definitely set, according to E. H. Bennett, consulting architect, as the innovation of a new era of city planning and architecture in Chicago.

If your Pavement is Bad, re-surface it with BRICK

Perhaps your street is in bad condition and you are considering having it re-built.

Why not get full salvage value for your old street pavement by using it as a base for a fine brick surface.

Extensive tests conducted by the U. S. Government prove that various materials make excellent bases for brick surfaces. Your City Engineer is familiar with these Government findings. Ask him about brick surfacing old pavement.

Paving brick, being vitrified, makes the finest known wearing surface for any street. This surface is tough—nothing on wheels can damage it. It has a resilient sand cushion to take up traffic shocks. It is totally proof against destructive weather conditions—thus actual insurance of lowest paving cost.

Brick surfaced streets look attractive. They are safe and smooth riding and always open to traffic.

"The A. B. C. of Good Paving," a taxpayer's manual, tells in words and pictures how engineers today build ever-wearing, low cost, brick surfaced roads and streets. Address your request to National Paving Brick Manufacturers Association, 332 South Michigan Avenue, Chicago.

FACE THE FUTURE • PAVE WITH BRICK

What Would You Do In The Gas Company's Place?

Suppose you had to wait three or four years to find out what your job would pay or what you would get for your goods. And suppose, all this time someone was proclaiming himself your opponent and doing all he could to mislead your customers or give you a "bad name" with your employer. Would you regard it as fair?

Suppose your expenses and all the other demands upon you were constantly increasing while your wages, salary, income or sales in business remained stationary or perhaps declined. Do you think you could make a permanent plan as to the future? Would you feel encouraged to go ahead?

Your Gas Company is patiently striving to carry on despite opposition inspired by personal ambition. The Gas Company has pursued this course in the belief that sooner or later the public would see the truth and take action to see that fairness is done.

There is nothing unreasonable in the Gas Company's rate request. It involves simply a charge of $1.00 for the first 500 cubic feet or any part thereof and 60c net per thousand cubic feet thereafter. Other cities are paying as much and more. The average rate for the United States is $1.22 per thousand cubic feet and this is for 560 heat unit gas compared with 1040 heat unit gas now supplied in Marion.

You cannot develop Marion without gas and there is no reason why it should not be supplied in reliable and efficient quantities assuring full use for all heat purposes. All the company asks is the same chance any individual or business concern must have to "make good."

This is a business matter and not a political game. You want to buy gas and the Gas Company wants to sell it. Should you go about this in a manner different from other buying and selling transactions?

Will you help bring this question to a prompt conclusion for the good of Marion and make way for progress?

Naturally, it is to be taken for granted that the dismissal by the Interstate Commerce commission of the complaint of the Pullman car porters will be taken by them as justification for the extended hand; not meaning to intimate, however, that the whisk wielders ever really felt the need of justification.

Why wouldn't it be a fine plan, looking to economy in time and money alike, to amend the constitution in such a way as to limit junior senators to investigating and senior senators to law-making, or the other way around? We haven't any preference in the matter.

Splendidly Qualified for the Place.

The naming of Alexander Moore as ambassador to Peru is very pleasing to his many friends in this city, not only because of their warm liking for him as a man of sterling qualities, but also because of his unquestioned qualifications and fitness for the place.

Mr. Moore's record as ambassador to Spain was an exceptional one. It is generally conceded that he brought Spain and the United States to a better understanding than had ever obtained between them previously and he was and today is better liked in Madrid than any previous representative of this country.

Mr. Moore introduced in the Spanish capital a style of diplomacy previously unknown there. As a matter of fact, it was unknown to all Europe. His policy was at all times to say just what he could or could not do. He was plain, outspoken and matter of fact. Strictly honest and truthful in all his diplomatic utterances, the Spaniards soon began to appreciate him at his true worth. It must have been something of a shock to them to have found an ambassador laying his cards, face-up, upon the table, but they soon learned to appreciate the merit of his course.

The Spanish is recognized as the most punctilious of all courts. It is more given to forms and ceremonies and usages than any other, yet it was not many months till this former Pittsburgh publisher had the esteem and admiration of the entire court and had made for himself warm personal friends of the king and queen—friendships which still exist unbroken and undiminished. Not only that, but he was popular with the premier and in all Spanish official life and with all classes of the Spanish people. In a word, his ambassadorial course which was looked upon throughout all Europe as revolutionary attained for him such recognition as no former diplomat in Spain had ever received, and naturally his great popularity was reflected in the new feeling which sprung up in Spain for the country he represented. He made Spain see America through his eyes with the result that Spain learned to know and esteem the United States as it never had before.

With such a record in Spain, it is easy to predict that Ambassador Moore will establish one in Peru which will redound alike to his own credit and that of the country he represents.

How Do We Know?

Speaking of the rare finds made in Ur, the city of Abraham, by the archaeologists of the joint expedition of the University of Pennsylvania and the British museum, a prominent European paper—one of the best purveyors of news in the country, for that matter—digresses to broadcast the despoiling of the royal tombs thousands of years ago.

"We, the people of the world at large marvel at, and applaud, the painstaking research that knows is poring out the broken history of man," goes on to say, "there are not a few supersensitive souls who shrink from the sacrilegious curiosity of those whom they regard as scientific vandals. Their murmur is heard whenever such a new discovery is made, some ancient burial place disturbed. Such tender and antiquated sentiments may be put at rest regarding the present discovery. Any persistent spirit that might have lingered there through the centuries undoubtedly knows where to hide when visited my marauders, since the tomb was rifled, with almost scientific thoroughness, some thousands of years ago.

"That is a bit of plundering at which one can feel indignant. The purse of some unsanctified fellow of old Chaldea was fattened on such objects as now would enrich the common knowledge of mankind."

We will risk being listed among the not a few "sensitive souls" by questioning if we have assurance that the tomb in question was visited by "marauders," with the result that "the purse of some unsanctified fellow of old Chaldea was fattened on such objects as now would enrich the common knowledge of mankind."

It may be noted that it is said that "the tomb was rifled, with almost scientific thoroughness, some thousands of years ago."

How do we know the rifling was not done by the scientists of thousands of years ago just as tombs are being rifled by the scientists of today. If we have read correctly, the body of the king laid away in this particular tomb was not found. The bodies of a number of royal personages have not been found in the tombs in which they were laid away. What would it profit the marauders, in the evident sense herein used, to carry off such bodies? Had only articles of value been taken and the bodies left, it would be easier to believe that the tombs were robbed for the purpose of plunder only. But does not the disappearance of the bodies indicate at least a possibility that the tombs were despoiled for very much the same purpose that royal tombs are being despoiled today.

Of course, we know that the entry of royal tombs today is the result of a desire to acquaint ourselves with the history of the peoples of the past; to glean their customs and other facts concerning them. At least, we should know it. We have been told often enough. But why could we not have learned just as much by an examination of whatever is found in such tombs without carrying off everything found. Why could not the contents of such tombs be replaced; if nothing else, then the bodies at least? Are the scientists of today leaving the bodies or anything else they may find? Not they. They are carrying away everything upon which they can lay their hands, and all the royal bodies found and all the rare articles will soon find their way to museums, to the reward in honors, if not to the material reward, of the finders.

No, the course followed thousands of years ago in some cases was identical with that followed in the case of the despoiling of the tomb of King Tut, and that will be the course followed in any other royal tomb of antiquity in which a royal body or anything else of interest today are found. Thousands of years ago the bodies of soldiers and of many articles committed to tombs were not so highly esteemed as scientists esteem them today, and hence many have been left undisturbed, but, as we see it, the absence of royal bodies from tombs is something of an indication that such tombs were not robbed for the purpose of plunder only.

One day spent in the British museum will cause one to doubt that the world has been ravished of its treasures for the purpose of learning alone.

For a second time this winter Great Britain is experiencing what London cables tell us is "Arctic" weather, many villages in the southern part of England being isolated by snowdrifts. The gulf stream must be "on vacation."

Dr. Walter Berg, of Stuttgart, German scholar and scientist, is returning home a convert to prohibition; planning the advocacy of a measure similar to the Volstead law over there. "I was opposed to prohibition before I came to the United States," he said, "but after two months of observation, I have completely changed my views. Prohibition will enable America to produce a superior race. In the non-prohibition countries alcohol is taking more and more victims." If the prohibition stuff is as bad as some of our acquaintances tell us, we'll have to be a superior race to survive it.

Poems That Live.

BE WHO WOULD DEPART.

Leave me alone.
I am weary of words and of voices,
I am weary of measures and weights
And the ticking clock.
I am weary of laughter and jest
And of empty singing.
I am sick of your simpering masks.
Go down and leave me.
Your fare is too soft,
Your walls are too close and too dark
And your streets are too narrow.
I will take the road to the hills
Or the pathless desert.
Foolish and blind and perverse,
Go down and leave me.
My season of darkness and night
Is past and over.
The time of the flowers
And the singing birds is come.
The seed of God in my heart
Has broken its wrappings,
And wings are astir in the folds
Of my outworn garment.
The trees and the seasons go
By no hour or moment.

Nature Exacts Toll.

BY ROYAL S. COPELAND, M. D.

What is your most common fault? Temper, late hours, strong drink, over-eating—what is your pet bad habit?

Pretty soon you will be fifty years of age. Can you expect to do at fifty everything you did so easily at thirty?

You should observe very little difference in all your powers. But, unfortunately, our manner of living is such that the average man has failed a good deal at fifty.

The average person of fifty can not drive a car with the same alertness and nervous response that he did at forty. But with the right sort of care of the body, there will be almost as great efficiency, even at sixty, as in early life.

When I speak of "care of the body," I refer to the every-day, day-in-and-day-out, care of the body. You can not care for the body six days out of every week and abuse it on the seventh, as regularly as the seventh day arrives—you can not perform this way and not expect to pay the fiddler.

You may not be interested now, but the day will come when you will hate the time you began to let down on good habits and right living. You can't eat your cake and have it, too. Unless you refrain from self-indulgence, you are sure to suffer in consequence.

Nature is a patient, indulgent, considerate master. But there comes a time when nature rebels. She will overlook an occasional misstep, but when there is persistent and every-day failure to walk in the middle of the road, there is sure to be trouble.

Appetite is almost irresistible. Just because we want a thing, yearn for it and can't resist the urge to take it, is the reason why so many lives are broken. If they are not broken, they are impaired in their quality.

Somewhere the other day I read that the "style of life is fixed at the age of four." I am not quite convinced that it is fixed at so early an age. There can be no doubt, I am quite sure, that the first ten years will determine the habits which will influence all the rest of life.

I made an application of this thought to our eating habits, saying that our appetites for foods are determined by what we practice in youth. A reader in Detroit write to say she disagreed with my conclusion. She said she eats lots of cake and candy now, because when she was a little girl and lived with her grandmother, she was not permitted to have sweet things. "I am making up for that deprivation now," she writes.

I can't blame the Detroit lady, but I am sure she will agree that she was influenced by her grandmother's force of character, at least. The dear old lady "just wouldn't" let the child eat sweets. Now the granddaughter just will do as she pleases!

But, this case aside, there is no doubt that our likes and dislikes for certain food, our enjoyment of or indifference to fresh air, our pleasure in or dislike of walking, our indulgence in late hours or making it the rule to go to bed early—these are habits and practices which early training has drilled into us.

If you indulge your appetites from your youth up, you will pay the penalty by the time you are fifty. In my opinion, this is an almost self-evident truth.

Drill your children in the exercise of good habits. Make it clear to them why the things you insist upon are good. In the long run such instruction will bear fruit in good health and long life.

ANSWERS TO HEALTH QUERIES

R. P. D. Q—What causes my hands to perspire?

A—This condition is often due to nervousness. Build up your general health.

AN AMAZING PROPOSAL.

Since the beginning of the American government more than 2,000 amendments to the federal constitution have been proposed in congress, but we doubt if any one of them conveyed such a threat to the efficiency or the perpetuity of the constitution as the proposal introduced in the house by Representative Dyer, of St. Louis.

Mr. Dyer's resolution provides for the amendment of the amending procedure of the constitution so as to permit the people either to amend the constitution or to enact statutory laws by direct initiative. Under this amendment the secretary of state, upon receipt of a petition signed by 500,000 bona fide voters praying for a proposed constitutional amendment or federal law, would be required to submit the proposal to the vote of the people at the next congressional election, and if such a petition is signed by 1,000,000 voters a special election would be required, to be called by the governors of all of the states. If a majority of the people voting favored the proposal it would become at once effective as an amendment to the constitution or as a statutory law, according to the nature of the proposal.

This is, of course, simply a proposal to apply the idea of the popular initiative to the federal constitution and to federal statutory law, but we can imagine no method of destroying the constitution that would work with the certainty and celerity of this one. The constitution of the United States is a work of such perfection, abundantly proved by a century and half of experience, that any proposal to alter it should be regarded with the utmost concern, and should have the most deliberate and intelligent consideration. Moreover, it puts into effect certain fundamental principles of government so carefully adjusted and so nicely balanced that to tamper with it unskillfully is to endanger the whole structure. This has been recognized from the beginning and though, as we have said, more than 2,000 amendments have been proposed in congress only nineteen have been adopted and ten of these are virtually a part of the original constitution. From 1790 to 1865 but two amendments were made effective and since 1865 there have been but seven. From this record two facts are made clear, first, that very few proposed amendments to the constitution have survive' the test of deliberate representative consideration which the existing amendment provision requires, and second, that rarely has good reason for amendment been found.

But suppose Mr. Dyer's amendment were now adopted. Any group of persons with a theory, however fantastic, or with a grievance, however unjustified, could put into operation the process of amendment or legislation. To get 500,000 signatures, or even 1,000,000, to a petition would be no difficult task if sufficient money were available. Tinkering with the constitution would become a popular diversion, for there are a vast number of people who think they know better than the founders what ought to be done for the government, and the passion for tinkering with forms of government is very prevalent everywhere. There is no provision in Mr. Dyer's amendment for any representative or responsible consideration of a proposed amendment. All that is required is a sufficient number of people and a sufficient number of votes. Millions of people could be persuaded to the support of impracticable or destructive amendments, in the honest belief that they were good, for it has often been proved that the people may be swayed by delusions or by passions to actions they later regret. We have only to recall the paper money and free silver crazes in this country to realize the potent influence at times of fantastic theories eloquently presented. Under such attacks the constitution would lose its sanctity first of all, soon would follow the loss of respect, and then its destruction. The constitution could not long be sustained with the way to change it thus thrown wide open to everybody, with the implied invitation to do whatever they pleased with the fundamental law of the land.

It is difficult to believe that congress will give any serious consideration to this amazing proposal, but the fact that Mr. Dyer is senior member and acting chairman of the judiciary committee of the house of representatives gives it an importance it would not otherwise present. — St. Louis Globe-Democrat.

Zero of Intelligence.

BY GARRETT P. SERVISS.

The University of Chicago sends out information [illegible] discovery of the zero of test intelligence has been made. Professor [illegible] institute of the psychology department, in exploration of the [illegible] of seven practical intelligence tests covering for the first time that [illegible] definite and regular increase in the [illegible] of test performance [illegible] growing children. Thurstone was [illegible] project the [illegible] down to the zero point which he declares to be about birth or a few months before.

And for Thurstone's own account of his achievement is put forward "Just as it is possible to define the absolute zero of temperature without ever physically reaching it, just so [illegible] present study attempts to locate the absolute zero of test intelligence in terms of [illegible] records."

Physicians have never been able precisely to picture in their imaginations what would happen to matter if it could be reduced to the absolute zero of temperature. Some have thought that it would disappear, or cease to be matter. It would be equally difficult to depict the state of a human being the zero of intelligence, which Dr. Thurstone locates at "about birth or a few months before."

It is a very old question in philosophy when the soul enters the body. Is that interesting moment to be fixed at the "zero point of intelligence?" But intelligence, it may be said, pertains to the mind, not to the soul, for some hold that mind and soul are not identical. Then there are others—and many experimental psychologists stand in that category, who deny that there is any soul, while, as for the mind, they hold it to be merely a kind of by-product of the body. It is to this that they apply their ever multiplying "intelligence tests." Dr. Thurstone admits, however, that there are no reliable methods of measuring intelligence below two or three years of age. But he puts much stress upon one point which he thinks has been conclusively settled by his study, and that is that there are greater differences in intelligence among older children than there are among young children. "In other words," he says, "a large group of children including both bright and dull ought to differ more and more among themselves as they grow up." To the uninitiated this would seem to be probable without any elaborate tests.

But how about the tests themselves? Many people are becoming a little skeptical about all these measurements and statistical calculations based on our fingers, our ears, our wrinkles and even our "intelligence"—which, however, be it remarked, is spoken of only as "test intelligence," an apparent admission that there may be a kind of intelligence that is not expressible in the metric system.

Only a short time ago a skeptic of this kind, a man of practical experience in the matter of children's minds—Dr. McMurry, professor emeritus in Teachers' college, New York, affirmed, with reference to the New York state examination system, that "on the whole it has been abominable, and we are moving toward a worse sytem. The trouble is that it is only the mechanical phases of education that can be tested by the examinations, psychological and others, so much in vogue today."

Dr. McMurry gave an example of a "Thorndike-McCall test" that had been applied to pupils in the fourth, fifth and sixth grades of a school of which he is director, and after ridiculing it he added: "That kind of testing brings education to a low level. It makes teachers bend their efforts toward the wrong kind of education. It's all because we've an army of young Ph. D.'s who have never taught children, framing up these tests and judging the efforts of teachers by them. We should test the testers and the tests."

However, new things like old things must be composed of both good and bad, of both truth and error, and upon the whole we are advancing, and as a race are getting more and more rapidly away from the "zero in intelligence"—if that has indeed been located.—Copyright, 1928, International Feature Service, Inc.

If farmers didn't joy ride so much and worked harder and kept up and added to their farms as they should they would all make a fair profit. Those are hard words but they come from T. F. Hopkins who owns a 1,000 acre wheat farm in Kansas. Says he:

"Every farmer who spends his time and money on his farm is making a go of it. Most of the unsuccessful ones buy automobiles on the installment plan before they get their crops harvested. Lack of success that these men have is due to lazziness and shiftlessness."

It is probably true that the average farmer does not work as hard as the average business man—but he often does a kind of work that the city business man couldn't or wouldn't do.

Our indulgence in moods is probably the most selfish thing we do. Just because we didn't sleep well or the toast was burned we cloud the wholesome atmosphere about us or lower the pleasant temperature of the room by our mood. And it is especially foolish to inflict our tempers and temperaments on our friends.

It isn't your friend's fault that you have an ugly disposition. Is it fair to make him pay for it? Reasonable unselfishness requires that you keep your bad moods to yourself if you can't do that, keep out of sight if that wants you that way.

Marion Lecture-Recital Club Presents Gifted Violinst in Concert

Miss Catherine Wade-Smith Is Heard with Members of Club Chorus in Guest Artist Program at Star Auditorium

Beauty and mellowness of tone combined with the extraordinary skill and technique of the gifted violinist afforded patrons of music who attended in the Star auditorium last night an evening of rare enjoyment, when members of the Marion Lecture-Recital Club presented Miss Catherine Wade-Smith as guest artist in the last of their artists' programs for the season. Appearing with Miss Wade-Smith were members of the Club Chorus, who were heard in two delightful groups, under the direction of H. D. LeBaron, of Delaware, who is in charge of the club this season.

Miss Wade-Smith arranged her program from Mendelssohn, Chaminade, Schubert-Wilhelmj, Burleigh, Scott, Kreisler, Gardner and Wieniawski, interpreting the serious, romantic and whimsical moods of the composers with a delightful variety of tone color, expression and charm which brought sincere applause from the audience with each appearance. She was assisted at the piano by John Brown as accompanist, whose playing provided a delicately colorful background throughout the program.

Club Chorus Numbers

Miss Helen Bever, club accompanist, splendidly supported the club members in their numbers which included two negro spirituals, "De Gospel Train," and "Hard Trials," both harmonized by H. T. Burleigh, and "The Wanderer's Night Song," A. Rubinstein and "Italian Serenade," Frederick Stevenson. Particularly delightfully was "The Wanderer's Night Song," as was also the last number of the second group, in which John Lacey sang the solo part.

Miss Wade-Smith chose for her opening number the Mendelssohn "Concerto," which she presented in three movements, Allegro Appassionato, Andante and Allegro Molto Vivace, and for her second appearance she played "Poeme," by Ernest Chausson. She included in her group of numbers, "Ave Maria," Schubert-Wilhelmje, "Perpetual Motion," Cecil Burleigh, "Lotus Land," Cryil-Scott-Kreisler and "From the Canebrake," Samuel Gardner, and concluded her program with "Fantasy Brillante" Wieniawski, with [illegible] from the opera, "Faust," by Gounod with the introduction garden scene waltz. For her encore numbers Miss Wade-Smith played "Waltz in A Major" Brahms and "Tarantella," Leon Kreisler.

Epworth Home Society Entertains at Birthday Party and Mission Pla

Looking Backward, Thinking Forward Is Theme of Pag Presented at Part of Program Given in Church Parlors Last Night

Decorations [illegible] of each of the twelve months of the year arranged a colorful [illegible] tables when members of the Women's Home Missionary Society of Epworth M. E. Church, entertained at a birthday party in the church parlors. Large white birthday cakes covered each of the 12 tables and individual candles in colors corresponding with the theme of the table decorations, marked places for about 150 guests, brought together as a dinner honoring the mother society, and arranged as a part of the local society's program for participating in the jubilee anniversary in 1930, when $300,000 will be raised for the new building project. During the evening an entertaining program of music, readings and a pageant was presented.

A miniature eskimo and igloo adorned the cake which centered the table representing the month of January and white candles in crystal holders completed the decorative note. Red hearts, suggestive of St. Valentine's Day gave a colorful touch to the table arranged for February and red tapers at either end of the table carried out the color scheme. Shamrocks and green candles designated the table for March while Easter eggs in a variety of shades, an Easter rabbit and yellow candles were the appointments carried out in the table for April.

Tables Colorful

A May day doll topped the birthday cake which centered the table suggestive of the month of May and a color scheme in lavender and green was carried out. A miniature bride and bridegroom noted the table for the month of June and pink and white were the shades carried out in the candles and other decorations, while patriotic shades of red, white and blue predominated in the decorations for the July table.

"Hello, Tao Lin!" he called.

"Hello, Black Bob!" Tao Lin answered. "I could not come until it was dark for fear it might be known that one from Java Dick had been sent to you. He has found out what you wanted to know."

"Right!" exclaimed Bob Kingsley eagerly. "Shall I go with you, or in my own boat?"

"It would be better to take your own boat, Black Bob," Tao Lin replied; "for it would not be well if we should be seen together; and, also, you will want the boat for your return. The boatmen are all robbers. Why should you pay their thieves' price?"

"Right!" said Bob Kingsley again—and five minutes later he was rowing shorewards.

Tao Lin was already back at his ironing board and the ubiquitous shirt when Bob Kingsley entered Java Dick's.

"Black Bob has come quickly," smiled Tao Lin in greetings. "He is but a minute behind me."

"I wouldn't be likely to waste any time under the circumstances," Bob Kingsley smiled in return. "Where's Java?"

"He waits," answered Tao Lin. "He is in his room that no one enters but himself, and where it will not be known that he talks with Black Bob." Tao Lin turned, and reached out his hand, pressing it against the wall. "See!" A door behind the ironing-board, that Bob Kingsley had not known existed, opened, or, rather, seemed to slide back and disappear in the wall itself—and what appeared to be an unlighted passage was revealed. "Hurry, please, Black Bob! Tao Lin must go quickly. It would be well that for me to be seen entering from the alleyway at this late hour—and now what you must see. The door of Java Dick's room is most near and at your left hand."

Bob Kingsley stepped hastily through the passage—and then, a ... scream of anger sweeping ... upon him, he swung sharply around to go back again. Too late! The door ... closed ... and ... himself standing ... Java Dick ... Java Dick glared at him and fastened ... on his throat. He ... Tao Lin ... Java Dick ... Java Dick ... Java Dick

NAVY RECRUITING ON LIMITED QUOTA HERE

No More Men To Be Sent from Here Until Latter Part of April

Orders from recruiting headquarters at Cincinnati received today by Chief Petty Capt. John B. Shanks, who is in charge of the Navy Recruiting Station in the American Legion Depot, puts into operation for this district an indefinite limit until further orders. Only seven men are to be enlisted from the entire district for the month of April and these are to be enlisted from Cincinnati.

It is expected that a large number of recruits will be called for in the near future and the recruiting office will be open every day to furnish men with information and get them ready for the next quota which will probably leave here late in April.

The fact that more than 60 per cent of the men who finish their enlistment are re-enlisting and remaining in the service is the reason for the limited number of men being enlisted at this time.

There still are some copies of the picture of Old Ironsides for sale at the recruiting station. All money received from the sales of these pictures go to the rebuilding of this famous old ship as a naval memorial.

MOTHERS, DO THIS—

When the children cough, rub Musterole on their throats and chests. No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt relief.

At first aid, Musterole is excellent. Keep a jar ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it may prevent pneumonia.)

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

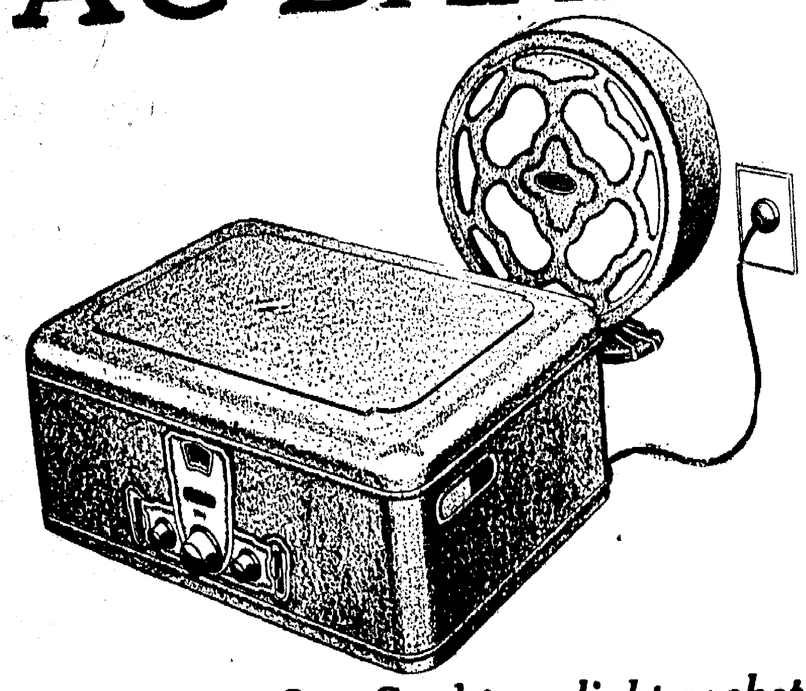
SINGLE UNIT—704
AC BANDBOX



The New Type-D Musicone $15

Crosley Musicones are famous for the rivalue. Now going into the fourth year of their production, they still lead the world. The latest member of this family is the new Type-D, purposely designed for use with the heavy power outputs of the new, better type sets and the AC Bandboxes.

This new Musicone stands a little over 12 inches high. Finished to match the Bandboxes, the orange-red cone behind the frosted-brown grille is a touch of color that makes this Type-D Musicone a thing of exquisite beauty.

$95

One Cord to a *light socket* for power---*that's all!*

The Bandbox, with condensers, coils and wiring, totally and separately shielded, is amazing. It is a genuine Neutrodyne receiver—costlier to build than the common losser type of circuit used in competitive receivers, but far superior in performance.

These features distinguish the radio of today from the radio of yesterday. Overlopping programs easily shut out—far off stations enjoyed as though they were local.

Clear, undistorted music in terrific volume, by use of 170 to 185 volts on the plate of the power output tube! Comparative checkings of competitive radios show interesting figures. Other radios show 100 to 110 and 130 to 140 volts on the plate of the output tubes. The 171 power tube should have around 180 volts.

A comparative test with any other receiving set on the market will convince you of Crosley superiority and of the truth of every Crosley claim.

The Mershon condenser, in the power element of the set, contributes much to the success of this 1928 wonder radio. It is a patent device of small size, yet great capacity. Not being paper, the danger of its blowing out is entirely removed, so that the desired voltage can be used to produce the desired results.

A Volume Control of ned and Patentable design.

NOTICE OF ROAD IMPROVEMENT

Notice is hereby given that the County Commissioners of Marion County, Ohio, have determined to locate, establish and improve the following described road in Marion County, to-wit:

"Beginning at the west line of the Vernon Heights Addition and the east line of land belonging to the City of Marion where the Vernon Heights Boulevard intersects same in Section 27, in Marion Township, Marion County, Ohio; thence with a right-of-way one hundred (100) feet in width, being fifty (50) feet on each side of a point in the center of said Vernon Heights Boulevard, westerly through the lands owned by said City of Marion and on a straight line, nineteen hundred and thirty-two (1932) feet to the present paved intersection of said boulevard at the Marion-Delaware I. C. H. No. 109, being about one hundred (100) feet south of the south line of the St. Mary's Cemetery."

The surveys, plans, profiles and cross-sections for said improvement, as prepared by the County Surveyor of Marion County, shows that in the construction of said improvement it will be necessary to appropriate land owned by the City of Marion, Ohio, and described as follows:

"Beginning at the east line of land belonging to the City of Marion where the Vernon Heights Boulevard intersects same in Section 27, in Marion Township, Marion County, Ohio; thence at a sustained width of one hundred (100) feet, being fifty (50) feet on each side of a point in the center of said Vernon Heights Boulevard, westerly across the lands owned by the said City of Marion and on a straight line, nineteen hundred and thirty-two (1932) feet to the present paved intersection of said boulevard at the Marion-Delaware I. C. H. No. 109, being about one hundred (100) feet south of the south line of the St. Mary's Cemetery."

Copies of the surveys, plats, profiles, cross-sections, specifications and estimates, together with an estimated assessment upon the lands to be benefited by such improvement for the proportion of the cost thereof to be assessed therefor, as prepared by the County Surveyor of said Marion County, are now on file in the office of the Board of County Commissioners of said Marion County for the inspection of all persons interested therein.

Objection to said improvement and to such estimated assessments, and claims of damages to be sustained on account of the construction of said improvement, will be heard by the said Board of Commissioners in their office in Marion, on March 23, 1928, at one o'clock P. M., Eastern Standard time, and unless such claims are filed in writing with the said Board of Commissioners on or before the time fixed for said hearing, the same shall be waived, except as to minors or persons under disability.

By order of the Board of County Commissioners of Marion County, Ohio, dated March 7, 1928.

T. A. O'LEARY, Clerk of Board.

PRINCESS GOWNS REVIVED FOR SPRING

One of Outstanding Features of Collections; Appear in Satin and Taffeta

Paris, March 14—One of the outstanding features of the spring collections is the revival of the old Princess cut, using the five shaped pieces to mould the dress to the figure loosely and flaring widely in the skirts which are stiffened at the hems with closely pulled ruchings of metallic embroidery.

They appear in satin, taffeta and very often white organdie, which is encrusted with bands of pink or blue. One model which is worn by Jane Renouardt, the well-known French actress, is in black taffeta trimmed with large ruches of pink which also makes a flat muff which slips over the wrist like a great cuff.

Another charming gown on princess lines comes in two shades of dahlia, the frock itself is of a deep shade of pink made with a tight body without decoration. It has a huge bow of silk at the back of one hip and a ruch around the edge. The underskirt which hangs six or eight inches below the hem, is the color of a dark red dahlia with a ruch of the same around the bottom.

Cyger uses the princess style for several afternoon frocks of black crepe de Chine made with full gores in the skirt which is cut in points of scallops about the bottom. The bodice part is of "chemisette" which is made of tiny bias bands of crepe de Chine sewed together in a design resembling very heavy lace. There are also Princess gowns for street wear in blue rep or wool georgette, often belt and straight down the front and with white collar and [illegible] of satin or lace.

FURNITURE EXCHANGE TO MOVE ON APRIL 1

Will Be Located at 147 N. Main st, Manager Announces

The Furniture Exchange, in the Thompson building, will be moved on April 1 to 147 N. Main st, the proprietor, O. W. McElhaney announced today.

The room now occupied by the store has been leased by the Logan Gas Co. for a 20-year period beginning April 1. The gas company will move its offices there about May 1 after doing considerable remodeling work. The company's lease also includes several rooms on the second floor of the building.

The N. Main-st room has been leased for five years for the Marion Furniture Exchange, Mr. McElhaney stated. The lease was negotiated with C. W. Kohnberger, owner of the building.

FIVE MONTHS' RAIN SETS LONDON RECORD

London—Rain in England is as [illegible] as the "bobbies" and the average Englishman takes the continuous series of wet weather as a matter of course. But even he has received a shock from the weather reports for this new year, which not only surpass the records of the past six "rainy" years, but which all promise of more decidedly wet weather.

These reports are amusing in a sense, for they show that there has been [illegible] rainless seven weeks. This discovery was made at the British Air [illegible]

RUBBER PLANT AND EQUIPMENT SOLD

Cleveland Man Takes Over Factory and Machinery for Investment Purposes

Factory building and equipment of the Studebaker-Wulff Rubber Co., bankrupt Marion concern, has been purchased by Herbert Andress, of Cleveland, who expected to hold the property as an investment, it was announced today. Mr. Andress acquired the property from the Equipment Co., Inc., of Trenton, N. J. It was sold to that company on Aug. 19, 1926, by J. W. Jacoby, trustee in bankruptcy for the Studebaker-Wulff Co.

Deed for the property was filed with the county recorder today by Mr. Andress. The transfer includes a three-story brick factory building, complete equipment for making tires and other rubber supplies, and the site of 2.86 acres.

Mr. Andress stated today that the equipment will remain in the building for two or three weeks to provide time for negotiations with any person or firm who might be interested in purchasing the property for a rubber factory.

May Dismantle

In the event that no prospective purchasers appear within that time, the equipment is to be dismantled and sold. Mr. Andress says that he already has a buyer for part of the equipment but will not arrange for any sale until he is certain that there is no possibility of disposing of the property in its entirety.

He states that the plant is now provided with complete modern equipment ready for immediate operation.

Mr. Andress says that he and his associates are in position to assist in financing any industrial enterprise which would include taking over the plant and equipment. He is head of the Cleveland Equipment Engineering Co., and specializes in the marketing of rubber plant equipment and machinery.

Should the equipment finally be removed, Mr. Andress expects to retain ownership of the building and site until negotiations can be made for a sale to some manufacturing enterprise. He believes that there are promising prospects of the plant being occupied in the near future.

Mrs. S. W. Rinehart was elected president at the meeting of members of the Rayl Class, Trinity Baptist Sunday School, held last night in the church parlor. Ira Appenzeller was elected vice president, Mrs. Ralph Wingett, secretary and Ernest Patrick treasurer. The meeting was attended by more than 100 members and guests and following the business session a program was given by Arthur Nat Atta, who entertained with humorous sing stunts. Members of Mrs. C. S. Lee's social group, of which Mrs. Harry Smith is chairman, presided for the entertainment hour and W. A. Baker's group, of which Mrs. C. E. Augenstine is chairman, presided for the serving of refreshments. The next meeting will be April 10.

DAMAGE SUIT BEING HEARD HERE TODAY

Trial Expected To Last Throughout Day; Foreclosure Action Filed

Suit for $15,287 damages, brought against F. Adelbert Rogers on behalf of Clarence Rizor, 15, for injuries alleged to have been sustained by the boy when hit by Rogers' automobile, came up for trial before a jury in the Court of Common Pleas today. The hearing was expected to last throughout the entire day's court session.

As a result of the accident, it was necessary to amputate the boy's left arm, the petition alleges. The suit was filed on Dec. 16, 1926 by Ora Rizer, designated as the boy's next friend.

The accident, according to the petition, occurred on July 20, 1926, on Bennett-st, near Waterloo-st. The boy, riding his bicycle, collided with the Rogers automobile.

The plaintiff is represented by the law firm of Mouser, Young & Mouser. William Geer of Bucyrus and L. E. Myers of Marion are attorneys for the defendant.

Foreclosure Asked

Foreclosure of a mortgage on 63 acres of land in Tully Township for payment of a claim of $1,808.15 is asked in a suit brought in the court of common pleas today against Floyd V. Ward and Isabell Ward by J. W. Jacoby. Douglass Felt is named as a party defendant, the petition stating that he has some claim against the defendants.

His mortgage, Jacoby says, is the second best lien against the property, the first being a mortgage for $3,000 held by the Provident Life & Trust Co.

In addition to foreclosure and sale, Jacoby asks that a receiver be appointed to manage the property.

Appointments

The following appointments were made today in Probate Court:

S. E. Keyes, administrator of the estate of Rachel Selter; Wilson S. Beck, administrator of the estate of Pearl L. Beck; Cora Walsh and Charles Walsh, executors of the estate of Edwin Walworth.

GLEANERS CLASS MEETS

DAYTON PAPER FOR HERBERT HOOVER

Dayton, March 14—"Herbert for President," is the four-column caption over a first page editorial appearing today in the Dayton Journal, owned and published by Ambassador Myron T. Herrick, Cleveland, and E. G. Barkam, Dayton. The newspaper pledged its unqualified support to Hoover's nomination and election.

SAYS PAT'S ACCOUNT WON'T AID RUDNER

Columbus, March 14—Pat McDermott's account of the Don McNeil assassination, as given to newspapermen in Ohio Penitentiary here last Saturday, will not lead to exonerate Ben Rudner, in the opinion of Harry Harter, Jr., Stark County prosecutor, who visited the penitentiary yesterday.

McDermott was convicted of complicity in the killing on Christmas Eve of 1926. Rudner, former Massillon hardware merchant and Floyd Streitenberger, former police detective, also were subsequently given life sentences. Louis Mazer, "underworld king," who turned state's evidence against Streitenberger, was allowed to plead guilty to manslaughter.

SUICIDE CAUSE OF DEATH, VERDICT

Columbus, March 14—Suicide was the cause assigned today by Coroner J. A. Murphy for the death of Clement Walker, 20, whose body was found, with a bullet in the head, in the treasurer's office at City Hall at 1:20 o'clock this morning. Walker was the son of City Building Inspector Bert Walker.

OPPOSE GOVERNMENT RELIEF FOR MINERS

Bellaire, March 14—Voicing its "disapproval of the passage of bills proposing to appropriate $75,000,000 of the people's money to be distributed for the relief of the families of idle coal miners," the Bellaire Kiwanis Club today was on record as urging all senators and congressmen from Ohio to oppose such measures.

A resolution adopted by the club yesterday expresses opposition to charity in those instances where "men ought to be and could be at work earning fair wages." Senators Fess and Willis are asked, specifically, to oppose any coal relief measures by the government.

PLANS MADE FOR WOOL GROWERS' MEET

Cadiz, March 14—Plans are complete for the forty-sixth annual Tri-State Sheep and Wool Growers Association convention here March 23-24. President Fritz Parkinson of Adena said today. Pennsylvania, West Virginia and Ohio wool growers will attend. This is the first convention of the association in many years to be held outside of Wheeling.

President Parkinson, Vice President Charles Oondeff of Waynesburg, Pa., and Secretary John L. Miller of Claysville, Pa., are in charge of arrangements for the convention which starts with a banquet Friday evening in the General Custer Hotel at which addresses will be given by J. F. Walker of Gambier, special representative of the federal department of agriculture, and E. S. Bayard, Pittsburgh farm paper editor. The latter will act as toastmaster and Walker will talk on the Sheep Industry in Australia and Africa.

COMMISSION GRANTS BUILDING PERMIT

George A. Smith To Erect Structure at Fairground and Main-sts

Permission to erect a store room and a filling station on the northeast corner of N. Main and Fairgrounds-sts was granted to George A. Smith by the City Planning Commission at a meeting held in the office of Mayor Earl Hazen last night. It was necessary for the commission to create a commercial zone taking in this corner before the application was granted.

The old buildings which now occupy the corner, will be removed and a substantial building erected, Mr. Smith told members of the commission. A barber shop will occupy one part of the store room, he said.

A petition asking permission to build an addition to a dwelling to be used for store purposes, presented to the commission by J. L. Morton, Cottonwood, was taken under advisement. Attorney J. D. Williamson, who represented Morton, was told by members of the commission that if Morton could build the addition at the rear of his home instead of in front, the board would look with more favor on the petition. According to the petition, Morton has been conducting a store at his home but wished to enlarge the building.

JUDGMENT UPHELD BY SUPREME COURT

Widow Awarded Compensation for Death of Professor at Ohio Northern

Columbus, March 14—The supreme court of the Seneca County courts awarding compensation from the state insurance fund to Mrs. Clara Davison, widow of Prof. John Davison, Ohio Northern University, was upheld today by the Ohio supreme court.

In reaching the decision the supreme court rejected the appeal of the State Industrial Commission for reversal of the judgment of the lower courts. The commission, under provisions of the Ohio Workmen's Compensation act, is custodian of the insurance fund.

Illness, terminating in his death, resulted when Professor Davison, then dean of the department of education at Ohio Northern, was presented with a rose at Green Springs, May 24, 1924. A thorn pricked one of his thumbs. Davison was addressing a high school graduating class when the accident occurred. He died Aug. 11, 1924.

When his widow applied for compensation, the Industrial Commission rejected the application on the ground that Davison was not "in course of employment" when the injury occurred.

Appealing to the common pleas court, counsel for Mrs. Davison argued that it was part of Davison's duty to act as a traveling representative of the university, that all fees accruing therefrom were used to augment his salary, and that his lectures to graduating classes and teachers' institutes were considered as part of the university's extension work.

Less handicapped nowadays

New ideas on personal hygiene responsible, says doctor

THE DOCTOR in a leading women's college was comparing this generation of girls with those of 25 years ago.

"We don't have nearly so many excuses from girls nowadays," he said. "Not even at those times when there is perfectly good reason for their feeling below par. For one thing, girls have learned how important it is to keep their systems functioning normally at all times. And at times when they are most likely to be upset and thrown off balance, they take special measures".

What doctors advise girls to use on such occasions is Nujol—a spoonful every night for several days beforehand helps to keep everything normal even under abnormal conditions. For it contains absolutely no drugs or medicine. Perfected by the Nujol Laboratories of the Standard Oil Company (New Jersey). Try this treatment for the next three months, and see if it doesn't make things much easier for you. You'll wonder how you ever did without it.

Be sure you get the genuine.

Colorful Tweeds Added To Stock of Women's Wear on Display In Marion Stores

Cape Represented in New Collection; One Style Strictly Tailored and Fits Shoulders Snugly; Good for Ensemble

Maids and matrons who scurried off to the sunny southland just as soon as the holiday festivities were ended settled the problem of clothes long since, but those who remained in the north to battle the elements are only now taking heed of what's what in the silks, satins, laces, and what not.

With every mind harboring bright jungle thought, and that one getting out into the sunshine, want to wear for motoring, golfing and walking is the paramount topic for the hour. A glance through the wares of this particular line affords considerable evidence of colorful tweeds as well as the more familiar tan-ish of beige and gray, with soft rose colors, greens with almond or yellow casts, orchids and stone blues are some of the colors exploited both in separate coats and costumes.

Cape Represented

The cape is represented in the new collection, one version being strictly tailored and fitting the shoulders snugly, while another is short in the back with deep hanging points at the front. The cape also is presented as a part of the ensemble, paired with a tailored crepe dress matching the gown.

If you would wear a jacket suit, tweeds seem most popular, and are being shown with finger-tip-length jacket. A finely knife pleated skirt with stitching well below the hips is a snappy model in suit skirts while another suit displays, with equal smartness a skirt with a double pressed box pleat at the center front, scalloped at either side.

Suits call for blouses which are being shown in shantung and silk pique as well as crepe, and some youthful model sport short, set-in sleeves.

Longer Coats Favored

Femininity is emphasized throughout the showing of many of the frocks for morning, "all day," sports, afternoon and evening wear. Longer-coated costumes continue to be favored and interpret the softened lines of tailored outfits while scarfs are becoming more and more popular, particularly in the furless coats. Furs are sometimes confined to cuffs and when used in collars, set well back from the face and include the full shawl types of long-haired fox, lynx or badger. Other items which make for individuality are peplum effects, huge pockets extending in panel arrangements, bands of stitching and

Girls! Marcel Your Own Hair In 15 Minutes

Easy, Pleasant Home Way—Costs Only Few Cents!

To girls who want luxuriously, beautiful hair, the recent discovery of a prominent Chemist has brought genuine joy!

Any girl or any woman who knows the value of attractively dressed hair will be glad to hear as an absolute fact—that it is no longer necessary to spend many hours and dollars in a Beauty Parlor each week.

For within the privacy of your own home, in 10 minutes' time and at a cost of only a few cents—you can easily and surely marcel wave your own hair, in a most delightful and becoming way. And the beautifully soft and glistening waves will "stay in" for a week or more!

Whether your hair is bobbed or long, naturally curly, hard to manage or dull and straight—it makes absolutely no difference! BEAUTYWAVE, now on sale by all good druggists, will quickly and easily give you a marcel—a gloriously attractive head of soft and lustrous, wavy hair—not to be duplicated in any Beauty Parlor!

Without sticky gums or the usual tell-tale signs of oil or grease—BEAUTYWAVE works on an entirely new principle, easy and pleasant to use, guaranteed to be harmless and a bottle that will last for weeks costs less than a single trip to the Hairdresser. Get it today—one trial will convince!—Adv.

CALEDONIA SCENE OF ODD FELLOWS' MEET

Series of Sessions to Practically All Lodges Present

... of county Odd ... planned for this year ... at Caledonia with representatives of practically all lodges in the county organization present. Those in attendance also included 25 visitors not connected with the county association, most of them coming from Mt. Gilead.

Conferring of the first degree on three candidates by the degree team of Harpster lodge was one of the main program features. One of the candidates was from Wayside Lodge of this city, one from Caledonia and the third from Mt. Gilead.

David Kalo of Mt. Gilead, president of the county association, had charge of the meeting.

A talk was given by Earl Brewer of Harpster, Odd Fellows' deputy for Wyandot County. He outlined preliminary plans for a county gathering to be held in Harpster on April 30 to celebrate the 119th anniversary of the founding of the order.

The next of the series of county meetings will be held in Waldo, March 29. This is to be a social session with no degree work included in the program.

Opportunity seems never to knock for those who have a lot of classic literature to spout.

ROYAL ARCH MASONS HOLD CONVOCATION

Past Master and Excellent Master Degrees Conferred on Class

The past master and most excellent master degrees were conferred on a class of candidates at a stated convention of Marion Chapter No. 62, Royal Arch Masons, held at the Masonic Temple last night.

Final arrangements were made for annual inspection, which is to take place at the meeting next Tuesday night. It was announced that a meeting of the officers has been called for Saturday night for rehearsal preparatory to the inspection.

This week's Masonic calendar also includes a stated conclave of Marion Commandery No. 36, Knights Templar, to be held Thursday night, when the order of the Red Cross will be conferred.

Next Monday night there will be a meeting of the committee appointed to make arrangements for the annual assembly of Marion Council, Royal and Select Masons, to be held in June for conferring of the super excellent degree. This degree is conferred only once each year.

The committee, which will make preliminary arrangements for the event, consist of Asa Queen, Harvey T. Gourley and James H. Eymon.

P-T PROGRAM

Waldo Association Meets; Students Present Readings, Vocal Selections

Waldo, March 14—A program, in charge of K. W. Pevenaure, superintendent of the local schools, was presented last night at a meeting of the Parent-Teacher Association. Edward Denzer, vice president of the association, acted as chairman of the meeting.

A vocal solo was presented by Edson Baker accompanied on the piano by Josephine Brundig. An oration was given by Avery Davis. Students of the fifth and sixth grades under the direction of Miss Jane Pevenaure recited a number of poems.

Refreshments were served by Miss Nola Wole, head of the Home Economics Department.

EDISON GLEE CLUB TO SING SUNDAY

Hold Practice and Get Together Meeting for Members and Families

Edison, March 14—The Men's Glee Club of the Edison Community held its regular weekly practice at the church last night and after the rehearsal went to the community rooms where the families of the members were holding a "get acquainted" meeting. The Glee Club has been organized for some time and has been holding meetings once each week. There are about 30 members who come from the three charges of the Edison Church, which includes the Boundary and Denmark churches. Last night they entertained their families at a luncheon of ice cream, wafers and coffee.

Mr. and Mrs. Ellis of Cardington were also visitors and assisted in the entertaining by singing several selections.

Wesley Masters, the director, and Mrs. Masters, also sang. Several numbers were given by the Glee Club.

On Sunday morning, March 18, the club will sing at the Boundary Church and at Denmark Church at 11 o'clock. This is to assist the minister, Rev. C. A. Riggs and the district superintendent, Dr. F. C. Anderson, of Delaware, who will speak at the churches Sunday.

On Tuesday night, March 27, the Glee Club will sing for a meeting of the Men's Brotherhood of the Methodist Church of Mt. Gilead.

TO PLAY CHECKERS

Galion Players Expected To Enter Crestline Tourney

Galion, March 14—A number of Galion checker enthusiasts are expected to enter the checker tournament which is to be held in Crestline Friday night. The vent is being sponsored by the Y. M. C. A. of that city and will be held in the social rooms of the "Y" building. Prizes are to be awarded and the tournament is open to women and men of all ages. Several special feature games will be played one match being played with the participants blindfolded. Similar tournaments have been held in former years and always prove to be of unusual interest.

INFANT DIES

Joan Louise Fleck To Be Buried in Old Mission Thursday

Upper Sandusky, March 14—Last rites for Joan Louise Fleck, infant daughter of Mr. and Mrs. August Fleck, who died at their home on Second-st Tuesday morning will be held at St. Peter's Catholic Church, Thursday morning at 9 o'clock in charge of Rev. Father John B. Forrer. Burial will be made in Old Mission Cemetery.

The child was born Feb. 5 and had been ill with erysipelas for one week. The parents, two brothers, John Edward and Robert, a sister, Mary Jane and two grandmothers, Mrs. Louise Cass and Mrs. Barbara Fleck, survive.

PASSES TEST

Upper Sandusky Youth To Enter Naval Academy in June

Upper Sandusky, March 14—Thomas Fleck has received word that he has successfully passed the confirmation test for entrance into the U. S. Naval Academy at Annapolis, Maryland. The examination was given at Lima, Feb. 15. He will probably not enter the academy until June 1. A physical test must be passed later. Fleck is the son of Mr. and Mrs. Louis Fleck, 201 E. Johnson-st, and a graduate of the Upper Sandusky High School with the class of 1926.

PROSPECT MISSION GROUP HOLDS MEET

Society Plans To Send Friendship School Bag to Mexico

Prospect, March 14—The Woman's Missionary Society of the Reformed Church, met with Mrs. S. L. Wottring Tuesday afternoon. Miss Adah Chapin was the leader. The meeting opened with a stewardship responsive service. Mrs. R. S. Herbster and Mrs. R. C. Windhorst offered prayer. Miss Chapin had charge of the fifth chapter of the text book "A Straightway Towards Tomorrow," the subject being "Social Progress." She was assisted by the following women: Mrs. W. W. Wottring told of "Conditions in Turkey;" Mrs. Edna Griffith, "Glimpses of Africa;" Mrs. R. C. Windhorst, "Y. W. C. A. Work;" Mrs. W. J. Fitts, "Tuberculosis Work in Syria;" Mrs. C. F. Swaney, "China's One Hospital for the Insane;" Mrs. D. P. Hord, "Welfare Work in Corinth;" Mrs. C. P. Herr, "Criminal Caste of India." Mrs. H. E. Thomas read a leaflet entitled "Bobby Cinder." Arrangements were made for a re-check of the count at the Legion Dugout tonight.

Members Enthusiastic

Walter Lee Sherfey headed the Army forces and the Marine Corps was led by C. B. Lehmer. The commanding officer of the Navy was designated as admiral and leaders of the other two contesting forces were ranked as generals.

As a consequence of the notable success of the membership drive, last night's meeting was marked by exceptional enthusiasm over prospects for the future of the organization.

The Post was highly complimented by D. J. Sasiavsky of Columbus, state adjutant of the Legion, who was among the guests of honor. He stated that the campaign here was one of the most successful that has come to his attention.

The campaign was held in connection with a statewide drive for new members in which Ohio and California are competing for honors. Should the majority of Ohio Posts register increases in proportion to the one here, this state will have no difficulty in defeating California, local Legion officers said.

To Broadcast Results

The contest between the two states will come to a close Thursday night, when the result will be broadcast from station WTAM by the Ohio Legion commander. The last report showed California to be in the lead.

Visitors were present at last night's meeting from Delaware, Bucyrus, and several other nearby cities.

In addition to reports of the membership campaign, the program included transaction of business and several entertainment features.

An "army hat sing," in which popular World War selections were sung and whistled, was led by Rev. W. S. Young and W. E. Orcutt.

One-minute talks were given by Charles Wiley, commander of Cooper Post, G. A. R., E. R. Boudler, of the Spanish War Veterans, Captain John B. Snacks, local naval recruiting officer, W. C. Brown, Harding Area Boy Scout executive, Parks Kennedy, chief de gere of the 40 and 8, and State Adjutant Sasiavsky.

Plan Baseball Tourney

An exhibition indoor polo contest between two teams of Legionnaires was a special feature of the entertainment.

The Post by a unanimous vote decided to sponsor organization of local teams for participation in the national junior baseball tournament, which was launched recently by the national Legion organization. Teams made up of boys from 12 to 17 years of age are to be entered in the tournament, which will end in September with a junior world series to decide the national championship. Report of plans for the tournament was made by L. Don Jones, member of the state Legion American committee, which is in charge of the project in Ohio.

Dr. J. W. McMurray, commander of the local Post, will appoint some member to direct organization of the teams here.

Plans of the Marion Hotel Pinochle Club for staging a benefit card party for the Legion building fund were also approved by a unanimous vote.

District Conference

It was announced that a delegation of local Legionnaires will go to London, O., on Sunday, March 18, to attend a central Ohio district conference called for discussion of the Legion's program of activities in this section of the state.

The meeting closed with a social session and serving of a Dutch lunch.

In connection with final reports on the membership drive, a large part of the credit for its success went to Carl F. Ebert, who was directing head of the campaign and conceived the unique idea of conducting it as a mimic warfare. Ebert held the rank of chief of staff and had supervision over all of the contesting forces.

INCOME TAX PERIOD WILL END THURSDAY

Internal Revenue Bureau Auditor Urges Residents To Comply with Law

With Thursday set as the last day for filing income tax returns, a notice urging Marion residents to comply with the law before the time limit expires was issued today by C. W. Beach, internal revenue bureau auditor who has been on duty here since March 1.

Beach, whose office is in the law library room on the third floor of the courthouse, was sent here to assist local citizens in making out their returns.

Today approximately 250 returns had been filed with him, Beach stated. He estimates that there are about 600 individuals and firms who should list their incomes for taxation, which indicates that there will probably be many outside the fold when the filing time closes, Thursday night.

Beach will be at his office until 8 o'clock tonight and Thursday will remain until midnight. The law provides penalties for those who fail to have their returns in before that hour.

In his statement today, Beach again reminds local citizens that all persons whose net incomes are in the taxable limitations must file returns regardless of exemptions.

One's chief grudge against the entire insect world is that it never sleeps.

JUAREZ GRAVE DIGGER IN UNUSUAL SUICIDE

El Paso, Texas—Life was a dreary prospect from his viewpoint as grave digger in the Juarez municipal cemetery, across the boundary line here, so Tomas Navarro, 47, shot himself.

Navarro had been digging in the bleak poverty stricken Juarez graveyard for nine years. His oft traced beat had been [illegible] where tourists play [illegible] a gift to the patrol [illegible] from which wealthier [illegible] watch.

As he bent over [illegible] graves, the laughter of dance [illegible] girls and the gay music of the [illegible] floating to him from the [illegible] ance which adjoins [illegible]

Depression prevailed [illegible] he worked among the dead within sight of the bright lights.

So he went to the zone of tolerance, watched the girls do the fandango, ordered a glass of tequila, and there in the splendor of the gay life, he shot himself.

It is some fun to be an irresponsible fabricator. One doesn't have to remember what one said before.

Gives Your Hair Unusual Beauty

The attractiveness of even the most beautiful women depends upon the loveliness of their hair.

Fortunately, beautiful hair is now easily obtained. It is simply a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and lustre, all the natural wave and color, and leaves it fresh looking, glossy and bright.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified Cocoanut Oil Shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

Two or three teaspoonfuls of Mulsified is all that is required. It makes an abundance of rich, creamy lather which cleanses thoroughly and rinses out easily, removing every particle of dust, dirt and dandruff.

It leaves the hair soft, silky and easy to manage and makes it fairly sparkle with new life, gloss and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

A four-ounce bottle lasts for months. —Adv.

GOOD FRIDAY PLANS ARRANGED BY K. OF C.

Lodge To Join with Ministerial Association in Asking Stores To Close

A committee was appointed last night by Marion Council, No. 671, Knights of Columbus, to act in conjunction with the Marion County Ministerial Association in an effort to have the Marion stores closed for three hours from 12 to 3 o'clock, on Good Friday afternoon.

Such action is urged to enable employes of local stores to attend religious services at their respective churches, if they choose. L. A. Axe was named chairman of the K. of C. committee.

Arrangements for a bazaar to be held at Schwinger's Hall in N. Prospect-st April 10 and 11, also were made last night. Proceeds from the bazaar will be used to help defray expenses of the state Knights of Columbus convention to be held here May 19, 20 and 21.

A banquet on Sunday, May 20, will be one of the principal features of the convention sessions. The after-dinner program, it is announced, will include addresses by prominent church and lodge leaders.

BLUEJACKETS GET FUN OUT OF NEW PHRASES

San Diego, Cal.—Uncle Sam's bluejackets are word and phrase inventors.

An appropriate exercise aboard the aircraft tender Aroostock recently she was officially dubbed "Be No," a contraction of the placard "There'll be no liberty tonight" which the sailors thought was too frequently posted on the bulletin board.

Tonight similar exercises will hold on the tender Gannet, and the euphonious title of "Me Too" bestowed, because wherever the Aroostock is, there will be found the Gannet—with identical retriction of shore leave.

Throughout the fleet the carrier Langley is affectionately known as "the covered wagon," because of her canopied top landing deck.

Why Don't You Try HOLSUM Today for Its Lasting Freshness?

It's an established fact in many kitchens that Holsum Bread stays fresh much longer than most loaves. This means that Holsum Bread is never wasted — a great saving.

This lasting freshness is blended into each appetizing loaf of Holsum with the richness of purest milk — selected shortening and finest yeast.

You'll find a welcome satisfaction in slicing a half loaf of yesterday's Holsum, if there's that much left. It will be fluffy and fresh, good to the last tasty morsel.

Central Christians Eliminate Agosta From League Race

Winner To Play Trinity Thursday

Three Teams Left in Battle for Championship of Marion County Sunday School Loop; Last Game Friday at Y. M. C. A.

BY KARL R. McELROY
Sports Editor

Contestants for the title of the Marion County Sunday School league were reduced by one last night when Central Christians eliminated Agosta at the Y. M. C. A., 37 to 25.

Central Christian cagers will next night and Thursday will take on Trinity Baptist in the final game to decide the championship of the last round. The winner of this contest will meet Epworth Friday night for the league championship.

Agosta made a rather poor showing in the contest last night failing to play the game that carried them through the season into a tie for first place with the Christians and Trinity Baptist.

At the half, the victors led 18 to 9 and in the final period increased the lead to 12 points. From the very start, the game belonged to the Christians with Agosta never threatening to overcome the big lead.

The winners road to victory behind the scoring of Geissler. He accounted for 16 points through eight field goals. Yazel was second high for Central with eight points. Rinnert scored two baskets and a like number of fouls.

Balbosz was the outstanding player for Agosta scoring 13 points from a guard position. Ladies of other members of the team to come through with more cost them the game.

Tuesday night's battle is expected to be a hard fought affair. Trinity staged a desperate battle throughout the season to land in the first division and are looking forward to the championship. All games are being played on the lower floor at the Y. M. C. A. under the direction of Physical Director F. O. Rudolph and the Sunday School League committee. Contests start at 8 o'clock.

BOWLING RESULTS

American Legion and Heffelfinger bowlers in the National League last night defeated their opponents in straight games. The former team won over Anthony in close matches while Burnett's failed to give the latter much opposition.

LAST NIGHT'S FIGHTS

At Indianapolis—Jock Malone of St. Paul won decision over Bobby Williams of New York, (10).

Jack Kane, Chicago welterweight, scored technical knockout over K. O. Victor of Cincinnati, (4).

Young Hopwood, Cincinnati light heavyweight, and Frankie Jones, Indianapolis, fought a draw, (6).

At Los Angeles—"Baby Joe" Gans of Los Angeles won decison over Hilario Martinez, Spanish welterweight, (10).

The Sports Train is an institution at the well-equipped winter resorts of Switzerland and serves the purpose of taking ski-runners and toboggan enthusiasts to higher ground from which to make a further ascent or to descend to the starting point, as the case may be. In this way much physical effort is saved, and the ski-runner gets a wider choice of ground for his exploits.

WOOSTER CAGERS TO PLAY 16 CONTESTS

Schedule Arranged for 1928-29 Basketball Season by Two Coaches

Wooster, March 14—An attractive 16-game basketball schedule has been booked by Coaches L. C. Boles and E. M. Hole for the Wooster College basketball team for the 1928-29 season.

As usual Wooster will play two games with the strong non-conference Ashland team. All the other games are with Ohio conference teams.

Wooster will have back next season, five of the seven letter men for this year. They are Captain-elect Beeler, Martz, Kullio, Bill and Dave Query. If some of the material now in the Freshman class is eligible next fall, Wooster's basketball prospects will be the best in recent years.

For the past season Wooster won 10 and lost 4 to stand high in the conference and also added three wins in non-conference games.

The 1928-29 schedule:

December 14, Ashland at Ashland; January 10, Ashland; 12, Case at Cleveland; 18, Baldwin Wallace at Berea; 19, Kenyon; 24, Akron at Akron; 26, Otterbein.

February 2, Oberlin; 7, Mt. Union at Alliance; 9, Ohio Northern; 14, Kenyon at Gambier; 16, Akron; 21, Baldwin Wallace; 23, Reserve at Cleveland.

March 2, Mt. Union; 9, Case.

"Frank Swift" (William M. Bishop) was the first American skating champion.

MARION RUNNER IS MEMBER OF STATE TRACK AGGREGATION

Fails To Place in Mile Run of Iowa Relay Meet

Columbus, March 14—Charles Earl Hanover, of Marion, was one of the members of the Ohio State University track team chosen by Coach Frank Castleman to represent the university in the Iowa Relays at Iowa City, Ia., Saturday.

Hanover, running in his initial intercollegiate contest, ran the mile race for the Buckeye squad but did not finish in a ribbon position. The Ohio State squad fell short one point of taking third place in the meet.

The Marion youth graduated from Harding High School in 1926 and entered Ohio State in the fall of the same year. During his freshman year he won his class numerals in both cross-country and track teams. Ineligible during the fall quarter, Hanover began his participation in inter-collegiate track meets at the start of the winter term of school.

He is enrolled in the College of Commerce and Administration.

GETS NUMERAL

Marion Youth Honored at Capital University in Basketball

Columbus, March 14—Stanley J. Schillinger, son of Rev. and Mrs. J. W. Schillinger, 243 S. Prospect st, Marion, Ohio, was among those who received numerals in basketball at Capital University here. Schillinger received a Freshman numeral in recognition of his services to the team. Although only a Freshman, Schillinger has been playing a scrappy game at forward, and will probably be seen doing work on the Varsity Squad next year.

Not only in basketball is Schillinger active, but also in football, having received his Freshman numeral in that sport in the fall.

Star Foul Shoot Contest To Be Resumed This Afternoon

Come around boys, the Star will continue its foul shooting tournament in Star Auditorium this afternoon when the third round is slated to start.

The tournament will continue throughout the balance of the week without interruption. All efforts of shooters will be directed towards bettering the mark set by Albert Chaney last Saturday.

In America figure skating was an institution in Colonial days.

Elimination Fights Seem Destined To End In Flop

BY FRANK G. MENKE

Black and ominous grow the nights [illegible] the days [illegible] Risko and the [illegible] Tunney.

Even things are looking up—at [illegible].

The "grand and glorious" climax [illegible] tournament seemed certain to end [illegible] a flop.

A few weeks ago there was [illegible] between Dempsey, Sharkey, Heeney and Risko. Understand Rickard had [illegible] with all his hopping apparatus that Dempsey and Sharkey would be the principals of the main bouts and that Delaney would spark Sharkey over hard and make a Tunney out of him [illegible] and Jamaica.

But alas!

The one drawback that Rickard hoped might survive because it was supposed to [illegible] and a punch was the first one offered. Heeney took care of that. But in so doing Heeney showed nothing to cause any delirium. Of course, he was Delaney fought-to-the-clinch-ing and then holding and clinching some more—would have made anybody look bad. But a great fighter looks good at all times. And Heeney looked BAD even in victory.

The next battle is between Sharkey and Risko.

"Saps" and "Boobs"

Suppose Sharkey wins. That shoves him back at Heeney. It may be recalled that they fought in Madison Square Garden not so many weeks ago. It was a sad fight; dull, stupid, colorless. The onlookers left the Garden calling themselves "saps" and "boobs" and names even worse because they fell for that match. And they vowed "never no more."

Let's presume Risko wins. That means that the final is for another meeting between Risko and Heeney who put on a time affair in Cleveland last October, with Heeney winning the nod after ten rounds.

Who envies Rickard in a spot like that where he must rematch men in a pre-championship fight—the same men who fought before and disappointed their onlookers?

Hoped for 65,000

Rickard planned to put on the elimination final in the open air of early May. He had hopes for a 65,000 crowd and a gate scaling up from $500,000. But as goofy as is the average New Yorker, and as much as he loves to be fleeced, it hardly seems likely that he will fall any considerable distance for either Heeney versus Sharkey or Heeney vesus Risko.

And now let us go on with the story.

Tunney is slated to fight somebody in June. It's to be either Sharkey, Risko or Heeney. If it's Sharkey—well, the odds ought to be 3 to 1 that Tunney wins. And when odds appear like that a fight is not a drawing card. Tunney, of himself, is not picturesque nor colorful; he never has been ranked as a [illegible] at the box [illegible]

And when [illegible] is after [illegible] remain if Sharkey [illegible] remains against Risko. Heeney [illegible] chances of the [illegible] as $750,000.

Odds Would Be Worse

If it's Tunney versus Heeney—well, that would be even worse. The arms of Heeney are short; he does not [illegible] to do damage. The [illegible] Tunney and Heeney were a terrific [illegible] course, he would be reckoned to [illegible] a chance. But Heeney isn't. Heeney has courage and Heeney can take [illegible] socking—helpful assets. But Tunney likewise is brave and also can absorb plenty of shellac. Also Tunney is faster than Heeney, is scientific, a great defensive fighter, and he hits harder than Heeney.

So what chance Heeney?

And if it's Risko—well, in 1925 Tunney whaled Risko in heartless fashion in Cleveland and simply cakewalked through 12 rounds to beat Risko by a few thousand miles.

Tunney has everything that Risko has—and then six times more. So it it is to be Tunney versus Risko in a world's championship ring—a few million New Yorkers and their relatives would keep their $27.50 or their $40 in the jeans and see the fight via radio.

So here we are, aren't we?

Stories differ as to what Tunney is to get for his end in a June battle. The general idea is that Tunney will get $750,000. But suppose that figure is high. Let's imagine it is only $600,000. The other fellow certainly will receive no less than $150,000, the expenses should scale another $150,000, making the outlay $900,000 as a minimum; a mere $900,000 before Rickard can break even?

Who's going to pay $900,000 to see Tunney against Heeney, Risko or Sharkey?

ACKLEY WINS

Marion County Youth Takes Close Wrestling Match

Columbus, March 14 — Stanford Ackley, of near Marion, a student at Ohio State University, took a prominent part in the victory of the Ohio wrestling team over the Wisconsin matmen here last Friday night.

Ohio took each of the seven bouts against the Western team on time advantages and won the meet, 21 to 0. It was the last meet of the season for the Buckeye squad.

The most interesting bout of the meet was that wrestled by Ackley and Heywood of Wisconsin in the 175-pound class. Both grapplers fought evenly for a great part of the time and Ackley had barely scored just enough time advantage over his opponent at the end of the contest to give him the victory.

PITT UNIVERSITY IS LOOKING AHEAD TO BIG YEAR IN SPOR

Receives First Fame in Basketball: Grid Team Makes Good Record

Pittsburgh, Mar h 14—With the passage of time, it becomes necessary to point the proud finger to the years in which athletic accomplishments were of extraordinary nature. The University of Pittsburgh will point a proud digit's tail for a number of the school year of 1927-28.

Pitt received national fame in football for the first time when the [illegible] in its history began a string of victories that included the best team east to mid-west. Pitt scored scores against most of its opponents among whom were such athletic powers as Michigan, Ohio State, Northwestern, Chicago, Syracuse, Army, Penn State, Wash.-Jeff. and other teams in the district. The Panther team reached high spot of its schedule with a 14 to 7 victory over Notre Dame.

Still Undefeated

Pitt's basketball team was expected to finish its schedule without defeat inasmuch as the victory chances of the remaining opponents were not seriously thought of by people who thought about them.

Pitt's sensational basketball team followed close upon the performance of the Panther football team which not only to victories and was hailed as one of the best in the land. A scoreless tie with Washington-Jefferson was counted greatly in discounting this because it was played under miserable weather conditions.

The Pitt football record was dimmed somewhat New Year's Day when Stanford defeated the Panthers. Pitt failed to assume a lachrymose attitude over this defeat, however, because it had played a month after the close of the regular season.

Swimming Team

The Pitt varsity swimming team splashed to water-soaked victories over Army, Notre Dame, Carnegie Tech twice over Wooster College, Ohio's only other acquatic meet is the same with Tech and a Pitt victory would be against the general idea of the outcome.

The outlook for a track team of excellence is not gloomy, which is the manner of avoiding a portrayal of cheeriness of the track prospects. Pitt, if the runners and jumpers run and jump to a creditable record and if they do otherwise, Pitt feels that it has had good reason to be athletically conceited over its varsities' performances during the 1927-28 school year.

Cardinals In Poor Condition Due To Injured Players

Bob O'Farrell Is Nursing Bad Arm

Regardless of What Happens St. Louis Team Certain Contender for Pennant, Walsh Says in Eighth Story of Training Camp Review

Editor's Note — This is the eighth of a series of articles by David J. Walsh, dealing with developments in various major league training camps. Other articles of the series will follow.

BY DAVID J. WALSH

[illegible] Fla., March 14—If a [illegible] report on the Cardinals, he probably [illegible] the following consider, make mood, interpret [illegible] ways. He might not [illegible] at this.

[illegible] as I was prepared to see [illegible] somewhat interrogative [illegible] They still are to me, in [illegible] McKechnie's reassurances [illegible] club was preparing to [illegible] Petersburg to play the [illegible] And the situation must remain [illegible] for some until such time [illegible] emerges from the emergency [illegible] their scalpels and call the [illegible]

[illegible], some of the returns on [illegible] haven't started out yet.

Sick List

[illegible] uncertainties yet to be [illegible] for and the various organs [illegible] noted herewith:

[illegible] O'Farrell, former manager and [illegible] arm.

[illegible] Thevenow, star shortstop: [illegible]

[illegible] Hafey, regular outfielder: eyes.

[illegible] Hodes, ditto: knee.

[illegible] Marsanville, elderly shortstop: himself.

[illegible] Thevenow's broken leg has yet to be [illegible] sound; that the bad arm [illegible] O'Farrell out of many games last year hasn't been adequately [illegible] here, if at all; that Hafey's [illegible] operations last winter may or may not have proved beneficial and [illegible] Hodes' injured knee is responding so slowly that he may not really know the true condition until June.

Thevenow Is Lame

The fact of the matter is that Marsanville has been playing shortstop regularly in Thevenow's place, the latter's crippled leg having given him considerable trouble here. The bone, it seems, has set properly enough but the tendon in the heel has made him lame. It is not a condition that indicates any great degree of permanency but, then, every game Thevenow misses must be regarded as so much lost. My understanding is that spring training is designed to afford the athletes just enough, i. e., spring training. Thevenow is getting very little.

In his absence, McKechnie says, the Rabbit is playing like the Maranville of yore. But, unless I am in error, he no longer would do as a shortstop in the International League last year. The chances are he is like so many other veterans—a flare up for a week or so and then, good night, tosti.

O'Farrell has done little, if any, catching this spring but McKechnie says his arm is all right and I presume that diagnosis will have to do until we know more.

They say Hafey's eyes have recovered completely from the effects of his sinus trouble and, he seems to be quite all he should be. Blades, however, makes no secret of the fact that he knows all too little about the real condition of his knee.

While they have been thinking it over, a juvenile outfield composed of John Martin, Houston, Texas; Walter Roettger, of Houston and St. Louis, and Howard Williamson, of Syracuse and Fort Worth has been plying its trade. They haven't been hitting any too well but McKechnie and the entire outfit swears by Roettger.

Douthit, a plausible specimen in 1926, still is about the premises but he will have to hit or take the consequences. Roscoe Holm, Storm Lake, Ia., and Danny Clark, Meridian, Miss., extra men last year, are also in there giving the thing the old college try again. Homer Peel, of Syracuse and Port Sullivan, Texas, likewise is giving the situation a rally but to no particular effect to date.

Bell Not So Good—

One naturally expects Thevenow to laugh off his broken leg in time but immediately to the right of him is Lester Bell at third base and that young man didn't do altogether right by our Nellie in 1927.

They can't go wrong on the opposite side of the infield, however, with Frank Frisch at second base and Jim Bottomley, of Nokomis, Ill., at first.

They constitute just 50 percent of a great infield, provided the other two men are right. If they aren't, Frisch and Bottomley constitute just 50 percent of nothing. Heine Schuble, a fighting kid from Houston, who came up from Danville last year to replace the injured Thevenow, still is in there trying. The perennial George Toporcer is back again.

Catching Is Fair

There is little the mater with the catching, even if O'Farrell does fail to deliver 100 percent, and nothing at all the matter with the pitching. Grover Alexander is aged, but the youth doesn't live who wouldn't trade the years to be Alex. He is good for at least another year at top speed. Shotton says Bill Sherdel, McSherrystown, Penn., left-hander, is good for five more.

Jess Haines, of Phillipsburg, O., is right at the top of his form and the word is that Flint Rhem has decided in favor of bearing down and against kidding around.

Fred Frankhouse, the Houston right-hander who went wild at the close of last season, completes the "starting staff." Art Reinhart, Waco, is back again for relief roles. John Berly, Spartanburg, S. C., right-hander, would have shut the Red Sox out with one hit in five innings the other day except for a bad bounding ball.

Carlisle Littlejohn, of Irene, Tex., also has caught McKechnie's vagrant eye and he thinks pretty well, too, of Harold Smith, of Creston, Ia., and Houston. Sylvester Johnson, back from Syracuse; Harold Haid, of Syracuse and Altoona; and Allyn Stout, of Syracuse and Webster, Mo., simply are doing the best they can, as I gather it.

O'Farrell's assistants or O'Farrell's successors, will be Frank Gibson, obtained from Boston this winter, and Manusco, up from Syracuse.

The Cards are certain contenders, regardless of what happens.

TWO LEFT FOR NEXT YEAR'S FIVE

RICHARD McANINCH

ORVILLE GARRETT

Harding High School basketball team will suffer greatly from graduation with only two letter men, Orville Garrett and Richard McAninch, being left for the foundation of next year's Red and White basketeers.

Seven lettermen will be lost to the school through graduation. However, Garrett and McAninch are veteran players having played for Harding High a number of years. McAninch was named All-Central Tourney guard last week.

Letters were presented to nine players and one manager as follows: Chalmer Cline, Richard McAninch, Orville Garrett, Abie Lewis, Donald Cram, Charles Evans, John Gillis, Laurence Partridge, George Stafford and manager Harold Carroll.

The team will be presented with sweaters within the next two weeks. The sweaters will be black with red letters.

Admiral Grayson's Stable To Be Modest This Year

Washington, March 14—Although with each passing year Admiral Gary T. Grayson, Washington sportsman, is devoting more attention to building up his breeding enterprises, and he will race only a modest stable during the impending season, it will be a potentially powerful aggregation of thoroughbreds.

His establishment will consist of six horses, three 3-year-olds and as many 2-year-olds. Strolling Player, Knapsack and Modification will make up the older division, while the juveniles are two fillies and a colt, all children of High Time.

The star of the stable is Strolling player, a son of Grand Parade-Comedienne, and a half-brother of Call Boy, winner of the English Derby. Admiral Grayson acquired him from the estate of Frank Curzon, the noted English sportsman, for $61,000.

Strolling Player was brought to this country last fall and he has been wintering at the farm of R. B. Jones, at Berryville, Va., under the watchful eye of Steve Lawler who, it will be recalled, won the Futurity astride Trojan.

For Preakness

The English colt will be prepared for the Preakness, the Kentucky Derby, the American Derby, the Saratoga Gold Cup and the Jockey Club Gold Cup and other important stakes, although the spring prizes will be passed up if he does not round to form satisfactorily. Admiral Grayson being one of the few sportsmen who is unwilling to risk ruining a good horse by rushing his training for early service.

Knapsack will be the second-string in the Grayson bow. This son of Royal Canopy-Haversack was the best youngster the imported stallion sent to the races last year. Early in the season he was regarded as a Futurity prospect but illness retarded his training and he did not come to hand until the closing days of the year when he turned in several sharp races over the Maryland tracks, showing improvement with each effort.

Promising Prospect

Modification, an aptly named daughter of High Time Light Wine, was a swiftly moving miss as a juvenile.

All her races held the promise that the longer the distance the better she would like it, and in her Admiral Grayson believes he has a sterling Oaks prospect.

Strolling Player is destined ultimately to head Admiral Grayson's breeding establishment which now consist of My Own, a son of King James-Betty Landon; Playfellow, Man o' War's illstarred brother, and Gnome, a son of Whiskbroom-Fairy Sprite, who was a sturdy performer in his day. Gnome has been in the stud for several seasons an dhas sent many useful horses to the races.

Patrons of the ring say that pugilism is 2,000 years old. Theseus invented boxing.

MARATHON RUNNERS ARE PRANCING DOWN FAMOUS OLD TRAIL

First Penalties Assessed Two Men for Deviating from Course

Kingman, Ariz., March 14—C. C. (Cross Country) Pyle's coast to coast marathoners were prancing down the Sun Dance Trail toward Peach Springs, a mile high today.

Arthur Newton, the Rhodesian rambler, took the lead on the 286 mile lap between Oatman and Kingman yesterday at the midway point and increased his lead to six hours and 38 minutes over Andrew Payne, Claremore, Okla., who was 12th into the control.

Paul Simpson, Burlington, N. C., was second on yesterday's lap with John Salo, Passaic, N. J., third.

Kingman, a thriving mining town of some 3,000, turned out to welcome the caravan. Flags and bunting adorned the streets as the runners checked in at the control.

Harry Rea, Long Beach, Cal., formerly of England and Bill Busch, Boston, drew the first penalties of the grind. Each was assessed an hour on elapsed time for deviating from the course.

MEMBERS OF RELAY TEAM AT DELAWARE WILL PAY EXPENSES

Wesleyan University Runners Anxious To Enter Illinois Carnival Saturday

Delaware, March 14—So anxious are three Ohio Wesleyan University men to enter the Illinois relay Carnival Saturday that they will pay their own expenses to Champaign, Ill., by the route. Ohio Wesleyan athletic officials did not have sufficient funds to pay the expenses of sending a medley relay team to Illinois so Harold Dunn, Uniontown, Penna., William D. Lewis, Carterton, Ill., and Edward Gentner, Oshkosh, Wis., asked permission of the athletic board to pay their own fare to the meet, so that a Battling Bishop medley team might be entered.

Carl Slavesky, Sardinia, quarter miler, and a member of Ohio Wesleyan mile relay team, will complete the personnel of the medley team, Slavesky, Norman Lambacher, Independence, Dwight Kane, Lancaster, and Robert Pettibone, Lakeside, will compose the Ohio Wesleyan mile relay team which the university is sending to the Illinois meet. Pettibone will also be entered in the 300 yard dash. Lambacher in the shorter dashes, and Kane in the hurdles. Kane, high inter-collegiate hurdler champion, is expected to make a fine showing in the Illinois meet, following his performance in the recent Central inter collegiate meet at Notre Dame, where he established a new national collegiate record for the 65-yard low hurdles.

Ohio Wesleyan's mile relay team won the collegiate mile relay race at the Illinois Carnival last year. Lambacher is the only new man on the Ohio Wesleyan relay team for the present season.

Sees Record

A young English billiard professional playing in Birmingham recently, established a record in snooker pool which never can be bettered while the rules of the game remain as they are today. He scored the full "possible" 147 points, something that never had been done before. This means that he "potted" the black ball (scoring seven) until each of the 15 red balls was down, and then took the rest of the colors in their prescribed order.

BIG FOUR WILL RUN CLEVELAND SPECIALS

Baseball Fans Expected To Take Advantage of Offer of Railroad

Marion baseball fans will have an opportunity to see the Cleveland Indians play this summer with railroad fares at excursion rates according to information received at Union Depot here.

Starting March 18 and running every other Sunday, the Big Four Railroad will operate excursion trains to Cleveland. These trains will run throughout the summer until the close of the excursion season.

In addition to the Cleveland trip, the Big Four is also planning excursions to Niagara Falls July 21, Aug. 11 and Aug. 25.

Sixteen-day excursions to New York will be run by the Erie Railroad June 21, July 26 and Aug. 23. Although no definite plans have been completed, it is probable that the Erie will run weekly excursions to Chicago during the summer.

Record Made

An unusual record was established by the Western Region of the Pennsylvania Railroad of which Marion is a part on March 8 when all passenger trains operated on time. Not a single train was reported behind time.

Line Renamed

The Cleveland and Pittsburgh Division of the Pennsylvania Railroad will be renamed the Cleveland Division. The change will be made tomorrow according to word received here.

Confusion existing over the double name led officials to make the change, it was learned. A total of 203 miles of main line and 782 miles of track will be included in the new division.

Visit Here

Visitors at the Hocking Valley Railroad offices late Monday afternoon were M. S. Conners, general manager; H. Q. Wasson, general freight agent; F. D. Hodson, comptroller and W. L. Rolier, engineer maintenance-of-way. All were from Columbus coming to Marion in a special car.

Repairing Tracks

A gang of Erie section hands for the last week have been repairing tracks in the yards west of the Union Depot.

Hocking Valley Work

Having completed laying new rail, gangs on the Hocking Valley Railroad are now busy with regular maintenance-of-way work. No special work is planned at the present time according to F. A. Sparks, supervisor.

WILL PRESENT EVIDENCE TO SAVE M'DONALD GIRL

Ottawa, Ont., March 14—Another scene will be enacted today in the fight to save Doris McDonald from death on the gallows. Minister of Justice Hon. Ernest Lapointe will meet K. A. Legault, K. C., counsel for the Mc Donalds. Legault will present new evidence on behalf of the former Mt. Vernon, N. Y., and Oklahoma girl, who is now occupying a cell in the Montreal jail.

New York, March 14—Aggressive buying of the motor stocks, the steel stocks and a few of the specialties provided the background for a vigorous advance in these sections of the market today. Radio had apparently spent its force as a speculative flash and after the first hour it gave place to the motor stocks and specialties, with American Linseed and Vanadium Steel sharing the honors for the bulls. Trading was in large volume, though considerably below yesterday's 4,000,000 share market.

An increase of 89,947 cars in the freight loadings on American Class One railroads last week, together with an unusually brilliant record of performance in individual companies, stimulated active buying of a dozen or more of the high grade railroad shares. New York Central and the Nickel Plate group led the activity in the rails, but a number of the best known investment and speculative rails had the most active day in a month or more with price trends decidedly upward.

Some of the best-posted speculative leaders circulated a report that Calvin Coolidge would be pushed forward as the candidate of his party, and would positively accept that nomination in due time. On this fact they based the sudden reversal of form of the stock market since March 1, resulting in one of the most disastrous bearish defeats the market has ever known. Stock exchange houses which had been unalterably bearish on the whole market around the 1928 story, suddenly switched to the bullish side of the market.

REVIVAL SERVICES

Auditorium of Central Christian Church Nearly Filled

With the auditorium of the church nearly filled Rev. J. J. Tisdall, Mansfield evangelist, preached last night at Central Christian Church on the subject, "Paralyzed."

"Bodies are liable to disease—the breaking of laws produce sin. The medical profession is a wonder in fighting disease but the disease of sin that paralyzes the soul needs the Great Physician, Jesus Christ," Reverend Tisdall said.

"The symptoms of soul paralysis," he continued, "are depravity of mental appetite, moral vision impaired, moral stupor, lethargy of mind, moral weakness, feverish disposition or fanaticism all lead to paralysis or death. Who can cure us? Only Christ—His skill is infinite but to be cured one must have faith in Him and apply His remedy," he said in closing.

E. C. Tuckerman of Huntington, W. Va., who is in charge of the music, last night sang as a solo, "Mother's Prayer." Mrs. Tuckerman, who assists him, holds a Bible drill for children at 3:45 o'clock every afternoon at the church. Reverend Tisdall will preach tonight on the subject, "Mutilating the Scriptures."

CALVARY SERVICE

Rev. E. Radebaugh, Preaches at Well Attended Rites

"The Christian's Relation to the Holy Spirit as Sanctifier" was the subject of the sermon preached by Rev. E. Radebaugh, pastor, at the revival service last night at Calvary Evangelical Church. Reverend Radebaugh said in part, "According to God's word it is necessary for us to do certain things in order to keep our standard of Christian living and not backslide and live in the world with an empty vain progression of religion. God says 'Be ye holy, as I am holy.' That does not mean we can throw off our cloak of religion on Monday morning after we have worshipped on Sunday. We must be holy in all manner of living. It is not optional, we are either for or against, there is no neutral ground."

E. W. Haruff and Jesse Underwood sang a duet, "Grace Greater Than Our Sin," and A. W. Houghton conducted devotionals. A song service preceded.

Rev. John Owen, of Taylor University, Upland, Ind., will preach at a Sunday School night service Friday and Saturday night and at three services Sunday.

More cigarets were smoked in Manchuria last year than in any previous year in its history.

TODAY'S REVIEW OF YESTERDAY'S MARKET

Chicago, March 14—Wheat displayed a firm undertone yesterday and prices ruled higher, registering moderate gains at the close. The market held within a comparatively narrow range as offerings increased on all the upturns, checking the advance in prices. Commission houses bought on the dips. News of wheat consumption was featureless and new crop advices were mixed.

At the close wheat was ¾@⅞c higher, with March at $1.38⅛, May $1.37⅜, July $1.35⅛ and September $1.31⅝c.

Corn was erratic. Prices were easily influenced and fluctuated rapidly in a range of 1@1½c. Bullish factors in the form of improved eastern domestic demand and further export business served to keep prices above the previous day's close and corn finished ⅛@⅜c higher. March closed at 91½c; May, 97⅝c; July, $1.00⅝, and September $1.01⅜.

Oats Strong

Oats were strong and higher all session. Eastern buying was again an important influence and there was some talk of export business. Closing prices were ¾@1⅛c up. Rye also was strong on the continued foreign demand, finishing ¼@1⅝c higher.

Wheat opened higher, due to early strength at Liverpool and the firmness in the corn market. Liverpool was due ¾d higher, but opened ½d higher. However, cables said more favorable reports of Winter wheat conditions in this country caused a reaction, and the close was ½d off. The local market showed a nervous tone and was easily influenced in either direction.

Moderate Export Sales

News relating to the old crop months showed little change. Seaboard reported a moderate export demand, with sales in all positions estimated at three hundred to four hundred thousand bu., including Durums and Manitobas. Cash wheat was firm, with the basis unchanged and prices steady.

Receipts were light, with only 13 cars inspected. Local sales totaled 21,000 bu. and sales to go to store were 25,000 bu. Deliveries on March contracts, 80,000 bu. Some further short covering in the March future again sent the price to a premium over May.

COL. HENRY M. TAYLOR WELL KNOWN IN MARION

Col. Henry M. Taylor, former assistant adjutant general of Ohio, who died in Los Angeles, was a well known figure in Marion and this section where for years he was connected with the National Guard. Taylor served as "inspector's Guard," a staff aide and medical officer, later becoming chief of staff and commander of the Fourteenth Brigade. The body will be brought to Marion some time this week, according to Paul Taylor, a son. Taylor is survived by his wife and two daughters.

BODY IS FOUND

East Liverpool, March 14—Searchers today found the body of Tony Zinkas, 47, in Yellow Creek, near Salineville. He had been missing since Saturday. No marks of violence were found on the body.

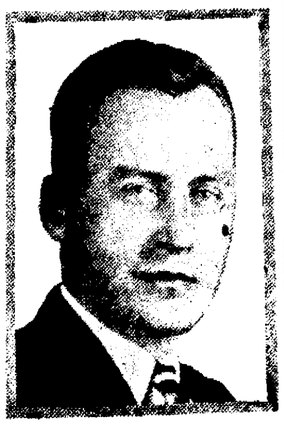
LOANS UP TO $500



Robbing a mail train is about the easiest way to get money—and get caught. Occasionally some short-sighted person goes wild after a few drinks of modern moonshine and decides to pick on the poor defenseless government. Astride his fiery steed or his high-powered motor car he holds up a train and attempts to beat the law just because he lacks spending money. All fools aren't dead yet but they're few and far between. The thousands of more sensible and honest people borrow as they need on their own personal security.

It's but a matter of making your wants known at The City Loan to get the money you need without risks and dangers.
